Dear Mr. Hinkley:

RE: Site Hazard Assessment Score Notification – Gearjammer Truck Plaza
Ecology Facility Site ID: 26981244

Mr. Michael Spencer of Ecology's Lacey Office recently completed the site hazard assessment (SHA) of the Gearjammer Truck Plaza site as required under the Model Toxics Control Act. This site's hazard ranking, an estimation of the potential threat to human health and/or the environment relative to all other Washington State sites assessed at this time, has been determined to be a 5, where 1 represents the highest relative risk and 5 the lowest.

For your information, Ecology will be publishing the ranking of this and other recently assessed sites in the February 25, 2003 Special Issue of the Site Register. The site hazard ranking will be used in conjunction with other site-specific considerations in determining Ecology's priority for future actions.

Please contact Mr. Michael Spencer at (360) 407-7195 if you have questions/comments relating to the SHA determination or the site scoring/ranking process. For inquiries regarding any further activities at your site, please contact Mr. Dick Bassett at (509) 454-7839.

Sincerely,

Donald W. Abbott
