Dear Mr. McIlvanie:

The Department of Ecology has conducted a site hazard assessment of the McIlvanie Machine Works, Yakima, facility. The purpose of this letter is to inform you that your site is being placed in a category requiring No Further Action by Ecology at this time and is not being placed on the state list of ranked hazardous sites.

This determination is based on the absence of evidence indicating actual or potential releases that could pose a threat to human health and the environment.

This finding in no way precludes Ecology from taking action regarding this site in the future if the situation warrants such action. The Department reserves all rights to pursue any subsequent action it deems appropriate.

If you have questions on matters covered in this letter, you may contact Robert Swackhamer, 106 South 6th Avenue, Yakima, Washington 98902-3387 (phone: (509) 575-2490).

Sincerely
