

Terrestrial Ecological Evaluation Process- Simplified Evaluation

Documentation Form - Navy Reserve Center (FS ID 93581722)

Criteria # (Concern)	Criteria	Response (Circle One)
1 (exposure)	Is the total area of soil contamination at the site less than or equal to 350 square feet	Yes (End TEE) / No <i>Site no longer contaminated</i>
2 (exposure)	Does land use at the site and surrounding area make substantial wildlife exposure unlikely based on completion of <u>Table 749-1</u> ?	Yes (End TEE) / No
3 (pathway)	Is there a potential exposure pathway from soil contamination to soil biota, plants, or wildlife?	Yes / No (End TEE)
4 (contaminant)	Are the hazardous substances at your site listed in <u>Table 749-2</u> and is (or will) their location in the soil at your site be at a depth not exceeding the point of compliance, and at concentrations that do not exceed the values provided in <u>Table 749-2</u> .	Yes (End TEE) / No Note: You must perform bioassays for contaminants at your site if no table value is provided.
5 (contaminant)	Will hazardous substances listed in <u>Table 749-2</u> be present in the soil at your site within 6 feet of the ground surface at concentrations likely to be toxic, or with the potential to bioaccumulate, based on bioassays using methods approved by the department.	Yes / No (End TEE)

Terrestrial Ecological Evaluation Process - Primary Exclusions

Documentation Form - Navy Reserve Center (FS ID 93581722)

no contamination

Exclusion #	Exclusion Detail	Yes or No?	Are Institutional Controls Required If The Exclusion Applies?
① ✓	Will soil contamination be located at least 6 feet beneath the ground surface and less than 15 feet?	Yes/No NA	Yes
	Will soil contamination located at least 15 feet beneath the ground surface?	Yes/No NA	No
	Will soil contamination located below the conditional point of compliance?	Yes/No NA	Yes
② ✓	Will soil contamination be covered by buildings, paved roads, pavement, or other physical barriers that will prevent plants or wildlife from being exposed?	Yes/No NA	Yes
③ ✓	Is there less than 1.5 acres of <u>contiguous undeveloped land</u> on the site, or within 500 feet of any area of the site affected by hazardous substances other than those listed in the table of <u>Hazardous Substances of Concern</u> ?	Yes <u>No</u>	Other factors determine
	And Is there less than 0.25 acres of <u>contiguous undeveloped land</u> on or within 500 feet of any area of the site affected by hazardous substances listed in the table of Hazardous Substances of Concern ?	Yes <u>No</u>	
④ ✓	Are concentrations of hazardous substances in the soil less than or equal to natural background concentrations of those substances at the point of compliance	<u>Yes</u> /No	No
