

# Memo

**TO:** Dale Myers, Site Manager, Washington State Department of Ecology

**FROM:** Elizabeth Rachman, Senior Project Manager, Terracon

**CC:** Jessica Faragalli, Project Manager, Kennedy/Jenks  
Craig Joseph, Kennedy/Jenks  
Dean Malte, Kennedy/Jenks  
Eric Hetrick, Project Manager, Chevron Environmental Management Company  
Cheryl Cameron, Chevron Environmental Management Company  
Kurt Peterson, Counsel, Cascadia Law Group, PLLC  
Elizabeth Black, Counsel, Cascadia Law Group, PLLC

**DATE:** October 15, 2015

**RE:** Progress Update, Boeing Field Chevron, Agreed Order No. DE 10947

---

A significant milestone was reached during this reporting period, as discussed below:

1. The Draft Remedial Investigation Work Plan and the Ground Water Monitoring Well Assessment Report continues to be reviewed and revised by all parties.
2. No additional sampling and/or testing reports were received by Boeing Field Chevron during this reporting period.
3. No work plan deviations were necessary, as no field work was performed during this period.
4. Terracon had no contact with representatives of the local community, public interest groups, press, or federal, state, or tribal governments during this reporting period.
5. The PLPs are currently negotiating the Draft Remedial Investigation Work Plan. Although the work plan is almost complete, the PLPs determined that an extension on the Work Plan deadline was necessary.
6. On behalf of the PLPs, Terracon requested a one-week extension via email to allow time to complete the negotiations. Ecology has granted an extension of the Work Plan deadline to October 20, 2015.
7. Todd Littleworth was reassigned to another project and Ms. Cheryl Cameron, of Chevron Environmental Management Company has been added to the distribution. In addition, Messrs. Craig Joseph and Dean Malte, of Kennedy/Jenks, have been added to the project.

8. During the next reporting period, Terracon plans to submit the Remedial Investigation Work Plan and the Final Ground Water Monitoring Well Assessment Report to Ecology for review.
