

MEMORANDUM

Date: December 21, 2011

To: Interested Parties, Repositories

From: Sandra L. Treccani 

RE: Responsiveness Summary for the Palouse Producers Prospective Purchaser Consent Decree (PPCD), Cleanup Action Plan (CAP), and State Environmental Policy Act Determination of Non-Significance (SEPA DNS)

This Responsiveness Summary addresses comments received by the Department of Ecology regarding the Draft PPCD, Draft CAP, and Draft SEPA DNS for the Palouse Producers Site in Palouse, WA. One written comment was received as part of the thirty-day public notice and opportunity to comment period. No changes will be made to any of the documents as a result of the comment received. A copy of the comment is attached.

Comment – email from Bo Ossinger:

The comment letter offered support for the project and praise for the work that Ecology has done to position the project for redevelopment.

Response:

Ecology appreciates the positive feedback and will continue to work closely with the City of Palouse and the community to move the project forward.

Treccani, Sandra (ECY)

Subject: Comments Re: Palouse Producers Site in Palouse, WA

I attended the Community Meeting in Palouse last night (12/1) regarding the cleanup of the Palouse Producers Site. I just want to say that I'm thoroughly impressed by the time, effort and diligence put into this project by the Department of Ecology. I realize that there is still a ton of work to be done, and questions about re-use that will need to be answered, but I feel like Ecology has laid the groundwork to give Palouse a strong chance to bring the project to a successful conclusion.

I particularly appreciate the time you spent last night explaining the project to community members like myself, and the time you put into answering those questions that arose. I knew some of the background of this project, but last night's speakers filled in the picture perfectly for me.

Thank you very much.
