Facility ID: 2886743 Section 18 Township 27N Range 5E
ERTS: 545943

Dear Mr. Schlueter:

The Snohomish Health District has completed the Site Hazard Assessment (SHA) of the Schlueter (Schlueter) Property site, as required under the Model Toxics Control Act. This site's hazard ranking, an estimation of the potential threat to human health and/or the environment relative to all other Washington State sites assessed at this time, has been determined to be a 4, where 1 represents the highest relative risk and 5 the lowest.

For your information, the Department of Ecology (Ecology) will be publishing the results of this, and other recently assessed sites in the *February 22, 2006, Special Issue of the Site Register*. The site hazard ranking will be used in conjunction with other site-specific considerations in determining Ecology's priority for future actions.

Please contact me at 425.339.5250 if you have any questions relating to the SHA of your site. If you have any inquiries/comments about the site scoring/ranking process, please call Michael Spencer at 360.407.7195. For inquiries regarding any further activities at your site now that it is on Ecology's Hazardous Sites List, please call Louise Bardy at 425.649.7000.

Sincerely,

Geoffrey W. Crofoot, R.S.
