

## DETERMINATION OF NONSIGNIFICANCE (DNS)

**Description of Proposal:** Airport Kwik Stop (Ione) Petroleum Contamination Interim Action – Groundwater Treatment Injections

Wells at the Airport General Store (Formerly Airport Kwik Stop) will be used to inject chemical oxidants, and wells at the former Cabin Grill property will be used to inject nutrients and bacteria into the groundwater to promote degradation of petroleum compounds in the groundwater. Samples will be collected from monitoring wells to trace the spread of the chemical oxidants and the nutrients in the groundwater and to evaluate the effectiveness of the injections in treating the contaminated groundwater. If the results suggest it will be effective, subsequent nutrient injections may be performed.

**Proponent:** Washington State Department of Ecology

**Location of Proposal:** 2102 HWY 31 2111 HWY 31  
Ione, WA 99139 Ione, WA 99139

**Lead Agency:** Washington State Department of Ecology

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An Environmental Impact Statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of the Environmental Checklist and other information on file with the lead agency. This information is available to the public on request.

- There is no comment period for this DNS.
- This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS.
- This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 14 days from the date below. Comments must be submitted by June 5, 2017.**
