Re: Final Determination of Liability for Release of Hazardous Substances at the following Contaminated Site:

Site Name: Coleman Oil Yakima Bulk Fuel
Site Address: 1 East I Street, Yakima
Cleanup Site ID: 13200
Facility/Site ID: 4233

Dear Mr. Schultz:

Please accept this correspondence as the official notice by the Department of Ecology (Ecology) of our determination of your client's status as a potentially liable person (PLP) for the Coleman Oil Yakima Bulk Fuel Site (Site). We received your April 10, 2017 letter indicating that you represent Ms. Carol Jean Wondrack.

On March 30, 2017, Ecology sent your client a written notice of our preliminary determination that Carol Jean Wondrack is a potentially liable person (PLP) for a release of hazardous substances at the Coleman Oil Yakima Bulk Fuel facility (Site). The 30-day comment period on our preliminary determination expired on May 3, 2017. As of May 3, 2017, Ecology had not received any written comments from you regarding this determination.

Based on available information, Ecology finds that credible evidence exists which supports the status of Carol Jean Wondrack as a potentially liable person for a release of hazardous substances at the Site. On the basis of this finding, Ecology has determined that Carol Jean Wondrack is a PLP with regard to the Site.

The purpose of the Model Toxics Control Act (MTCA) is to identify, investigate, and cleanup facilities where hazardous substances have been released. Liability for environmental contamination under MTCA is strict, joint and several (RCW 70.105D.040(2)). Ecology ensures that contaminated sites are investigated and cleaned up to the standards set forth in the MTCA statute and regulations. Ecology has determined that it is in the public interest for remedial actions to take place at this Site. Ecology will contact you regarding the actions necessary for Carol Jean Wondrack to bring about the prompt and thorough cleanup of hazardous substances at this Site.

John Schultz

Failure to cooperate with Ecology or comply with MTCA in this matter will result in Ecology employing enforcement tools as it deems necessary and appropriate. This includes, but is not limited to, the issuance of an administrative order. Failure to comply with such an order may result in a fine of up to \$25,000 per day and liability for up to three times the costs incurred by the state (RCW 70.105D.050(1)).

Your rights and responsibilities as a PLP are outlined in Chapter 70.105D RCW, and Chapters 173-340 and 173-204 WAC. Ecology's cleanup project manager for the Site, Frank Winslow will contact you with information about how Ecology intends to proceed with the cleanup.

If you have any questions regarding this notice, please contact Frank Winslow, at (509) 454-7835 or frank.winslow@ecy.wa.gov.

Sincerely,

Valerie Bound
