Re: 8002 Railroad Ave. E.  
Snoqualmie, WA 98065

Dear Ms. Bardy:

Your certified letter of August 1, 2017 was received.

It is our knowledge the vacant land portion of the site was cleaned of any contamination when the oil tank was removed. The remaining portion of the site is under an occupied store building and, to our knowledge, has never been tested or determined to be contaminated with diesel. There are no plans to remove the structure.

Please advise if there is any action we should take at this time or at what time in the future.

Could you mail us a copy of the electronic records applicable on this property, for we do not have access to retrieve this data. If there is a fee, please advise and send us a bill for payment in advance.

Sincerely,

Ewing Stringfellow, Agent  
E. S. Laird, LLC
