**Re: Approval of Revised Public Review Draft Interim Action Report Volume II, Marine Data Summary Report for the Study Area  
Port Angeles Rayonier Mill Site**

Dear Mr. Snyder:

The Washington State Department of Ecology (Ecology) has completed review of the revised Public Review Draft Interim Action Report Volume II, Marine Data Summary Report for the Study Area, Port Angeles Rayonier Mill Site (Volume II).

Ecology provided comments on the Public Review Draft of Volume II on May 8, 2014. Rayonier revised the document, incorporating Ecology's comments, and submitted the revised Volume II on July 23, 2014. Our review confirms that comments have been adequately incorporated into the report, and the report is approved for public review.

We plan to hold public comment on Volumes I, II, and III together. We will make available Volume II to the public through our website and at local repositories. We look forward to completing Volume III this next year. If you have any questions, I may be reached at (360)407-6257.

Sincerely,

Marian L. Abbett, P.E.  
Project Manager  
Toxics Cleanup Program  
Southwest Regional Office
