Dear Ms. Hodgins:

On June 5, 2017, the Department of Ecology (Ecology) sent you written notice of our preliminary determination that you, Adena Hodgins, are a potentially liable person (PLP) for a release of hazardous substances at the Stubblefield Salvage Yard facility (Site). On June 28, Ecology received written comments from your legal representative, Robert Dunn. On July 5, 2017, the 30-day comment period on our preliminary determination expired.

Based on available information, Ecology does not find that credible evidence exists that you are liable for a release of hazardous substances at the Site. On the basis of this finding, Ecology has determined that you will not be considered a PLP with regard to the Site. This determination does not preclude Ecology from later establishing that you are a PLP. This determination is subject to change should additional information be received.

We thank you for your cooperation in this matter. If you have any further information about the release or questions about this notice, please contact the cleanup project manager for this Site, Katie Larimer, at 509-329-3419 or [katie.larimer@ecy.wa.gov](mailto:katie.larimer@ecy.wa.gov).

Sincerely,
