Re: Former Chevron Bulk Plant #1001372, 638 Marine Drive, Port Angeles, WA

Dear Ms. Pearson:

I would like to acknowledge receipt of your letter dated, August 18, 2003, in which your agency notifies Chevron Products Company (ChevronTexaco) of its status as a Potentially Liable Party for the release of hazardous substances at the subject site. By way of this letter, I would like to inform you that Chevron Products Company accepts this status. At this time, we are not aware of any other potentially liable parties. It is possible however, that other potentially liable parties will be identified as Chevron Products Company performs further investigation. We will inform your agency of any such findings as they occur.

I would also like to confirm that ChevronTexaco is participating, under separate agreement, with The Port of Port Angeles and Atlantic Richfield Company to perform RI/FS activities within the Marine Trades Area Site. This Site is currently the subject of Agreed Order negotiations with your agency and includes the former Chevron Bulk Plant site. ChevronTexaco will continue to work cooperatively with the other parties involved at the Marine Trades Area Site and with Ecology during the ongoing RI/FS activities.

If you have any questions or comments, please call me at (925) 842-8695 or Don Wyll, Science Applications International Corporation (SAIC), at (425) 482-3315.

Sincerely,

Brett L. Hunter
