Re: Deferral of Liability Determination for Release of Hazardous Substances at the following Contaminated Site:

- **Site Name:** Chelan Chevron
- **Site Address:** 232 E. Woodin Avenue, Chelan, WA
- **Cleanup Site ID:** 6660
- **Facility/Site ID:** 77751227

Dear Mr. Choudhury:

On February 12, 2018, the Department of Ecology (Ecology) sent you written notice of our preliminary determination that Frontier Communications, Inc. is a potentially liable person (PLP) for a release of hazardous substances at the Chelan Chevron facility (Site). Ecology received a request from you for an extension of the 30-day deadline which we granted. The revised deadline was extended until April 4, 2018. The comment period on our preliminary determination is now expired. On April 6, 2018, Ecology received written comments from you.

Based on the information available at this time, Ecology has determined that it will not make a final determination that Frontier Communications, Inc. is a PLP for a release of hazardous substances at the Site. This determination does not preclude Ecology from later establishing that Frontier Communications, Inc. is a PLP. This determination is subject to change should additional information be received.

We thank you for your cooperation in this matter. If you have any further information about the release or questions about this notice, please contact the cleanup project manager for this Site, John Mefford, at (509) 454-7836 or john.mefford@ecy.wa.gov.

Sincerely,

Valerie Bound, Section Manager
Toxics Cleanup Program, Central Region Office
