

# Chevron Service Station #9-6590 Chelan County

## Draft Remedial Investigation/Feasibility Study Available for Public Comment

The Washington State Department of Ecology (Ecology) is providing an opportunity for the public to comment on the draft Remedial Investigation/Feasibility Study (RI/FS) for the Chelan Chevron Service Station.

### Site Background

The site is located at 232 East Woodin Avenue, Chelan, Washington. Chevron Products Company owned and operated the service station in the mid-1980s, when the petroleum release is believed to have occurred. The site continues to operate as a service station and foodmart; however, Chevron Products Company has not owned or operated the facility since 1988, when the release was discovered.

To determine the extent and degree of contamination at the site, Chevron Products Company has installed more than 30 groundwater monitoring wells and collected numerous soil and groundwater samples. Laboratory analyses of these samples indicate contamination has migrated offsite to the west and southwest of the service station. Free petroleum product has been detected in monitoring wells on Woodin Avenue, Emerson Street, on

the station's property, and to the southwest of the service station.

### What is a RI/FS?

The purpose of the Remedial Investigation is to determine the nature and extent of the release of hazardous substances at the site and to gather necessary data to support the Feasibility Study. The purpose of a Feasibility Study is to develop and evaluate cleanup action alternatives for the site. Ecology will use the completed RI/FS to develop a Cleanup Action Plan.

### Ecology Welcomes Your Comments!

Please address any written comments or questions you may have on the draft RI/FS to Krystal Rodriguez at the address listed in the information box on the right. Documents can be reviewed at the locations listed at right from December 19, 2003 through January 19, 2004.

Ecology will incorporate appropriate comments into the final RI/FS. If ten or more persons request a public meeting on the draft RI/FS, Ecology shall hold a public meeting for the purpose of receiving comments.
