

STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY

Northwest Regional Office • 3190 160th Avenue SE • Bellevue, Washington 98008-5452 • (425) 649-7000

December 2, 2010

Mr. Mark Engdahl
Verizon Northwest, Inc.
M/C WA 102SS 1800 41st Street
Everett, WA 98201

Re: No Further Action at the following Site:

- **Site Name:** Verizon Service Center Casino Rd
- **Site Address:** 2600-2610 West Casino Road, Everett, WA
- **Facility/Site No.:** 5353241
- **VCP Project No.:** NW2326

Dear Mr. Engdahl:

The Washington State Department of Ecology (Ecology) received your request for an opinion on your independent cleanup of the Verizon Service Center Casino Rd facility (Site). This letter provides our opinion. We are providing this opinion under the authority of the Model Toxics Control Act (MTCA), Chapter 70.105D RCW.

Issue Presented and Opinion

Is further remedial action necessary to clean up contamination at the Site?

NO. Ecology has determined that no further remedial action is necessary to clean up contamination at the Site.

This opinion is based on an analysis of whether the remedial action meets the substantive requirements of MTCA, Chapter 70.105D RCW, and its implementing regulations, Chapter 173-340 WAC (collectively "substantive requirements of MTCA"). The analysis is provided below.

Description of the Site

This opinion applies only to the Site described below. The Site is defined by the nature and extent of contamination associated with the following releases:

- Gasoline-range total petroleum hydrocarbons (TPH-G), diesel-range total petroleum hydrocarbons (TPH-D) and oil-range total petroleum hydrocarbons (TPH-O) into the soil.

Mr. Mark Engdahl
December 2, 2010
Page 2

Enclosure A includes a detailed description and diagram of the Site, as currently known to Ecology.

Please note a parcel of real property can be affected by multiple sites. At this time, we have no information that the parcel(s) associated with this Site are affected by other sites.

Basis for the Opinion

This opinion is based on the information contained in the following documents:

1. Results of Excavation Oversight and Environmental Sampling – Hydraulic Vehicle Hoist, Verizon Facility; 2600-2610 W Casino Road, Everett, Washington. Prepared by Shaw Environmental Inc., and dated January 6, 2010.
2. Underground Storage Tank Decommissioning Report, Verizon Support Center, 2510 West Casino Road, Everett, Washington 98204. Prepared by HAI Hahn and Associates, Inc., and dated January 8, 2009.
3. Contamination Assessment Report, GTE West Casino Road Installation and Repair Support Center, GTE W.O. #2320-B01-3C001AA, Everett, Washington. Prepared by Applied GeoTechnology Inc., and dated March 3, 1993

Those documents are kept in the Central Files of the Northwest Regional Office of Ecology (NWRO) for review by appointment only. You can make an appointment by calling the NWRO resource contact at (425) 649-7190.

This opinion is void if any of the information contained in those documents is materially false or misleading.

Analysis of the Cleanup

Ecology has concluded that **no further remedial action** is necessary to clean up contamination at the Site. That conclusion is based on the following analysis:

1. Characterization of the Site.

Ecology has determined your characterization of the Site is sufficient to establish cleanup standards and select a cleanup action. The Site is described above and in **Enclosure A**.

2. Establishment of cleanup standards.

Mr. Mark Engdahl
December 2, 2010
Page 3

Ecology has determined the cleanup levels and points of compliance you established for the Site meet the substantive requirements of MTCA.

3. Selection of cleanup action.

Ecology has determined the cleanup action you selected for the Site meets the substantive requirements of MTCA.

4. Cleanup.

Ecology has determined the cleanup you performed meets the cleanup standards established for the Site. Enclosure A includes a description of cleanup actions conducted at the Site.

Listing of the Site

Based on this opinion, Ecology will remove the Site from our Confirmed and Suspected Contaminated Sites List and Leaking Underground Storage Tank List.

Limitations of the Opinion

1. Opinion does not settle liability with the state.

Liable persons are strictly liable, jointly and severally, for all remedial action costs and for all natural resource damages resulting from the release or releases of hazardous substances at the Site. This opinion **does not**:

- Resolve or alter a person's liability to the state.
- Protect liable persons from contribution claims by third parties.

To settle liability with the state and obtain protection from contribution claims, a person must enter into a consent decree with Ecology under RCW 70.105D.040(4).

2. Opinion does not constitute a determination of substantial equivalence.

To recover remedial action costs from other liable persons under MTCA, one must demonstrate that the action is the substantial equivalent of an Ecology-conducted or Ecology-supervised action. This opinion does not determine whether the action you performed is substantially equivalent. Courts make that determination. *See* RCW 70.105D.080 and WAC 173-340-545.

Mr. Mark Engdahl

3. **State is immune from liability.**

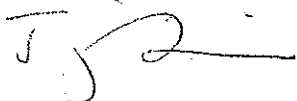

The state, Ecology, and its officers and employees are immune from all liability, and no cause of action of any nature may arise from any act or omission in providing this opinion. See RCW 70.105D.030(1)(i).

Termination of Agreement

Thank you for cleaning up the Site under the Voluntary Cleanup Program (VCP). This opinion terminates the VCP Agreement governing this project (#NW2326).

For more information about the VCP and the cleanup process, please visit our web site: www.ecy.wa.gov/programs/tcp/vcp/vcpmain.htm. If you have any questions about this opinion or the termination of the Agreement, please contact me by phone at (425) 649-4310 or e-mail at jliu461@ecy.wa.gov.

Sincerely,

Jing Liu
NWRO Toxics Cleanup Program
