February 6, 1997

Ken Peterson
Ken's Auto Wash
1013 East 10th
Ellensburg WA 98926

Dear Mr. Peterson,

The Kittitas County Solid Waste Programs has completed the site hazard assessment (SHA) of the Ken's Auto Wash site, as required under the Model Toxics Control Act. This site's hazard ranking, an estimation of the potential threat to human health and/or the environment relative to all other Washington state sites assessed at this time, has been determined to be a "Two (2)", where 1 represents the highest relative risk and 5 the lowest.

For your information, Ecology will be publishing the ranking of this and other recently assessed sites in the February 14, 1997 Special Issue of the Site Register. The site hazard ranking will be used in conjunction with other site-specific considerations in determining Ecology's priority for future actions.

If you have any inquiries/comments about the site scoring/ranking process, please call Michael Spencer at (206) 407-7195. For inquiries regarding any further activities at your site now that it is on Ecology's Hazardous Sites List, please call Tony Valero, Ecology Central Regional Office (CRO) at (509) 454-7333.

Sincerely,

A handwritten signature in cursive script that reads "Gerald Tousley for".

Gerald Tousley
Site Hazard Assessment Specialist
