Whatcom County Parcel 380330111249
Bellingham, Washington 98225
Ecology FS ID: 21786898

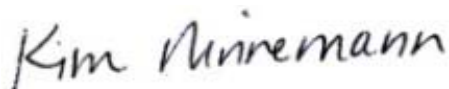

Dear Ms. Escobedo:

Stratum Group would like to notify you that we have scheduled to install four shallow groundwater monitoring wells and three deep monitoring wells on the Cascade Laundry site on June 19-21, 2018. The proposed locations of the wells match the well locations provided in the *Remedial Investigation Work Plan* (Stratum Group, 2016). The proposed well locations are provided in the attached aerial photograph, for reference.

In addition, we have begun communication with the City of Bellingham regarding potential installation of groundwater monitoring wells on the down gradient Maritime Heritage Park site (aka Holly Landfill), which is owned by the City. The City has asked that we communicate with Lucy McInerney of Department of Ecology prior to installation of these wells. The locations of these wells will be partially determined by the water quality found in the deep wells on the Cascade Laundry site.

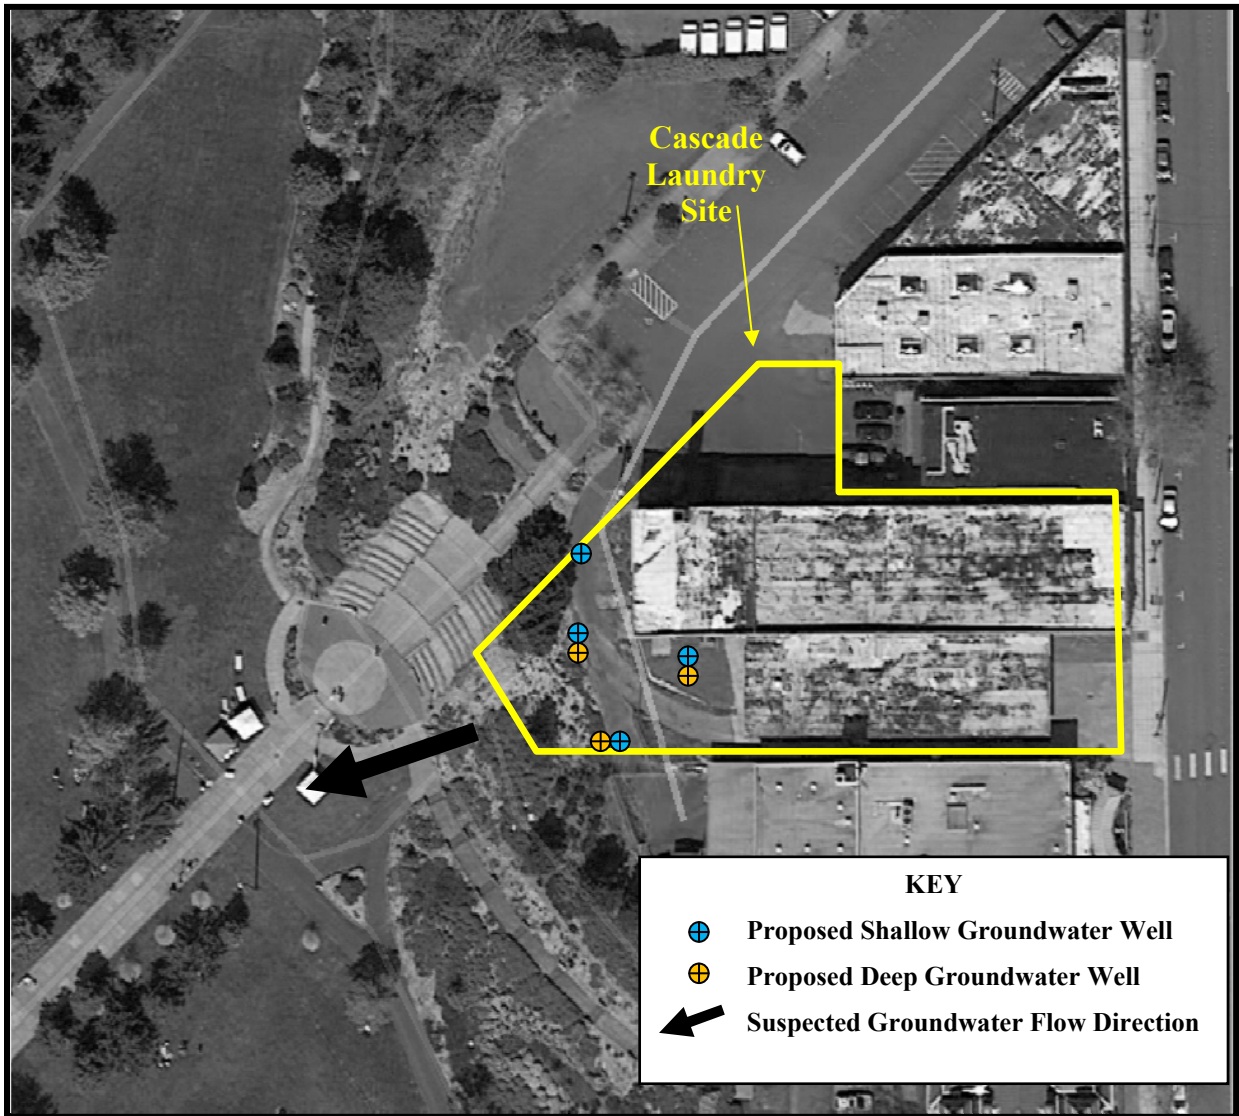

Should you have any questions or concerns regarding the well installation locations, please do not hesitate to contact us at (360) 714-9409.

Sincerely,
Stratum Group

Kim Ninnemann, B.S., L.G.
Licensed Geologist
