**Model Toxics Control Act (MTCA) Cleanup Site
Aladdin Plating Environmental Remediation Project
1657 Center Street, Tacoma, Washington
September 2018**

The Washington State Department of Ecology (Ecology) will be administrating a site cleanup at 1657 Center Street in Tacoma, Washington. The enclosed site map shows the location of the Aladdin Plating Remediation Project.

The site cleanup consists of excavating contaminated soil, disposing of the contaminated soil offsite, and backfilling with clean soil. The duration of the active phase of the project will be approximately two to three months—to November 30, 2018.

The reason you are getting this letter is because your house or business is close to this project.
