

Georgia Pacific West Site Legal Document Ready for Review

The Department of Ecology invites you to review an amendment to a legal agreement. The amendment requires development of a cleanup action plan and design documents to address contamination within the Chlor-Alkali Area of the Georgia Pacific West site on the Bellingham Waterfront.

Georgia Pacific West Site Legal Document Ready for Review

The Department of Ecology invites you to review an amendment to a legal agreement with the Port of Bellingham. The amendment requires development of a cleanup action plan and design documents to address contamination within the Chlor-Alkali Area of the Georgia Pacific West site.

In June 2018, under the existing legal agreement, the Port completed a report evaluating cleanup options. The next step in the cleanup process is to develop a cleanup action plan. After public review of the cleanup action plan, the Port will develop design documents.
