A public meeting to discuss the engineering design report for the cleanup of a portion of the Cornwall Avenue Landfill site. The report provides the preliminary design for isolating contamination and controlling landfill gas.

## Cornwall Avenue Landfill Site Engineering design report

In December 2017, Ecology invited the public to comment on an engineering design report for the cleanup of a portion of the Cornwall Avenue Landfill cleanup site on the Bellingham waterfront.

The report has been available for public review since Dec. 18. Ecology has received requests for more information and has scheduled a public meeting. We have also extended the comment period through Thursday, Feb. 22.

**Please join us to learn more about this report.**

**Feb. 15, 2018  
6-8 P.M.**
