Ecology held the public comment period from January 3 to February 3, 2019.

Ecology received one public comment during the comment period.

Relevant Model Toxics Control Act Cleanup Regulation: WAC 173-340-420(5)

Report by:
Nancy Davis
Community Outreach and Environmental Education Specialist

And

Panjini Balaraju
Periodic Review Coordinator

Public Comment From: Inger Jackson

I am a consultant who has been working on the Birds Eye site for over 20 years. I had some minor line edits and a couple of corrections to historical concentrations that I have made in the attached pdf. The data to support the corrections in historical concentrations are available in the 2011 RI/FS Table A1-5 and Table 7. Regards, Inger Jackson

Response To: Inger Jackson

Hi Inger,

Ecology appreciates you for taking the time to comment on the draft periodic review report. After consulting with the 2011 Remedial Investigation/Feasibility Study Report, Ecology has accepted all of your minor edits, corrections to the draft periodic review report and revised the draft report accordingly. Also Table A1-2 and Table 7 were added to the report under Appendix 6.5 and Appendix 6.7, respectively.
