Dear Mr. East:

The Snohomish Health District has completed the site hazard assessment (SHA) of the Go East Landfill property, as required under the Model Toxics Control Act. A determination of no further action (NFA) at this site has been made by the Department of Ecology (Ecology) based on this SHA.

For your information, Ecology will be publishing the results of this, and other recently completed SHAs, in the *August 17, 2004 Special Addition to the Site Register*.

Ecology reserves the right to initiate further investigation at this site where new information is received indicating potential/actual threat to human health and/or the environment through the release of hazardous substance(s).

Please contact me at 425.339.5250 if you have any questions/comments regarding this SHA/Determination of NFA.

Sincerely,

Geoffrey W. Crofoot, R.S.  
Environmental Health Specialist
