RE: Groundwater Sampling at 307 W. Walnut Ave. Yakima - Frank Wear Cleaners Site,

**FSID: 444** 

Dear Brad Jones:

The Washington Department of Ecology (Ecology) is continuing the Yakima Railroad Area groundwater-monitoring project. As part of this investigation, Ecology's Environmental Assessment Program will be conducting groundwater sampling for the Yakima Railroad Area between April 22, 2019 and April 26, 2019.

Samples will be analyzed for tetrachloroethylene, breakdown products, and general water quality parameters. Results will be available to you once Ecology receives them, upon your request. Please consider this letter to be a formal property access notice for an Ecology representative.
