Re SEITZ PROPERTY -
SILVERDALE

Dear Mr. Pendowski

My last two letters asked some hard questions, but also offered some reasonable and fair solutions.

I now believe that using the 1985 threshold levels, that the property would have no exceedence, and therefor the NFA letter should in fairness, be issued, and this matter concluded. It would be "off your books, and "out of my wallet".

Please consider this as fair and reasonable.

Sincerely
Andy Seitz
