Re: Progress Report No. 26 - Mt Baker Properties Site - April 2019

Mt. Baker Housing Association PPCD No. 16-2-29584-3 SEA Facility Site ID #96127971 and Cleanup Site ID #13054 Project No. 160324-01

Dear Mr. Wang and Ms. Lindwall:

This progress report by Aspect Consulting, LLC (Aspect) is for the Mt. Baker Housing Association's (MBHA) Mount Baker Properties Site (Site), which includes properties slated for cleanup and redevelopment located at 2800 Martin Luther King Jr. Way South, 2864 South McClellan Street, 2810 South McClellan Street, 2806 South McClellan Street, and 2802 South McClellan Street (The Properties).

This progress report is being completed as a condition to a Prospective Purchaser Consent Decree (PPCD) signed between MBHA and the Washington State Department of Ecology (Ecology), amended and filed February 24, 2017. Per the PPCD, "MBHA will complete a Remedial Investigation and Feasibility Study (RI/FS) for the Site in accordance with the Model Toxics Control Act (MTCA) Regulation (Washington Administrative Code [WAC] 173-340) subject to Washington State Department of Ecology review and approval."

Section XII of the PPCD states that, "MBHA shall submit to Ecology written monthly Progress Reports that describe the actions taken during the previous month to implement the requirements of this Decree. The Progress Reports shall include the following unless Ecology determines otherwise as provided in this Section:

- A. A list of on-site activities that have taken place during the month.
- B. Detailed description of any deviations from required tasks not otherwise documented in project plans or amendment requests.
- C. Description of all deviations from the Scope of Work and Schedule (Exhibit C) during the current month and any planned deviations in the upcoming month.
- D. For any deviations from the schedule, a plan for recovering lost time and maintaining compliance with the schedule.
- E. All raw data (including laboratory analyses) received by MBHA during the past month and an identification of the source of the sample.
- F. A list of deliverables for the upcoming month if different from the schedule.

The PPCD Amendment 3 also indicates that the Progress Reports should include, "Monthly and cumulative estimates of the funds expended by MBHA against the \$600,000 total of Public Funds provided through this Third Amendment, together with a projection of the funds expected to be expended in the forthcoming month." It also states that the estimate of funds expended shall include any invoices and expense proofs submitted for payment by MBHA's outside technical consultant(s). A funding summary is provided as item H below. Pertinent invoices are attached to this monthly report.

A. On-Site Activities and Progress Made during Reporting Period

- Project management, including interacting with Ecology and subcontractors, issuing a progress letter, and miscellaneous project correspondence.
- Continued preparation of the RI report.
- Preparation of the CID request and submittal of the request to Ecology.
- Attended design team meetings to provide environmental and geotechnical information to support construction design and remedial excavation planning.
- Obtained access to four of the six privately owned parcels located South of S. McClellen St. and East of 29th Avenue for the Vapor Intrusion evaluation. Completed the Vapor Intrusion evaluation, which included obtaining indoor air, ambient air, and soil vapor samples from each property (a total of 12 samples), installation and development of two groundwater monitoring wells (AMW-22 and AMW-24), and obtaining groundwater samples from the two wells. The samples were submitted for chemical analysis of chlorinated solvents on a rush turnaround time (with prior approval from Ching-Pi Wang at Ecology). Data was analyzed relative to the applicable MTCA Method A and B screening cleanup levels.
- Prepared for and attended two meetings with Ching-Pi Wang and Sandra Matthews at Ecology to discuss the Vapor Intrusion Evaluation Work Plan, the results of the Vapor Intrusion evaluation, the Contained-In Determination request, and the schedule for the RI/FS and CAP reports.
- Continued communications with Sound Transit in an attempt to gain access to their property to install a groundwater monitoring well. This included preparation of a letter to send to Sound Transit in response to their meeting with Ecology on March 20, 2019.
- Began planning a dewatering evaluation to support potential groundwater treatment and dewatering during the cleanup action.
- Communications and coordination with MBHA's representatives to support cost recovery efforts.

B. Deviations from Required Tasks Not Otherwise Documented in Project Plans or Amendment Requests

 Based on our September 12, 2018, meeting with Ching-Pi Wang of Ecology, we are continuing to attempt to gain access to the Sound Transit property located on MLK Jr. Way South to install a monitoring well to evaluate the lateral extent of vinyl-chloridecontaminated groundwater. A dewatering evaluation is being planned to evaluate the amount of dewatering and treatment that may be necessary to complete the remedial excavation. This information will be used to inform shoring design.

C – D. Deviations from Schedule and Plan for Recovering Lost Time

• The RI report, which was originally scheduled to be completed in December 2017, will be completed in 2019 to incorporate the data obtained after demolition of the dry cleaner building and the completion of the additional explorations. The RI will also include data obtained from the vapor intrusion evaluation and the additional monitoring well on Sound Transit's property. The schedule for the draft report will be identified in future monthly progress reports.

E. Raw Data Received from Laboratory

 We received chemical analytical results for four soil vapor, four indoor air, four ambient air, and two groundwater samples obtained during the Vapor Intrusion evaluation. The soil vapor, indoor air, and ambient air samples were analyzed for chlorinated solvents using EPA Method TO-15. The groundwater samples were analyzed for chlorinated solvents using EPA Method 8260C.

F. List of Deliverables and/or Key Activities Planned for Next Month

- Continue communications with Sound Transit to request access to their property.
- Preparation of the draft RI report.
- Preparation of the draft FS report.
- Completion of the dewatering evaluation.

G. Communications and Public Outreach Activities

Because communications and public outreach are critical elements on this project, we have also included information related to contacts with PLPs, stakeholders, and the public:

• No new activities were completed this period.

H. Ecology Funding Details

The table below summarizes the allotments of public funds provided, the invoiced amount every month, and the amount to be withdrawn from the public funds. Beginning in August 2018, a separate invoice will be prepared for services completed that pertain strictly to the former Phillips 66 gas station; the money to pay these invoices will be withdrawn from the public funds. The other invoice pertains to services completed for the entire Site, and MBHA will seek reimbursement from other sources (such as insurers) to pay these invoices prior to withdrawing from the public funds, which is reflected by a \$0 amount in the "Amount to be Withdrawn from Public Funds" column in the table below.

| Progress Report Number and Date | Invoice Cutoff Date | Invoice Date | Invoiced Amount | Amount to be Withdrawn from Public Funds | Funds Remaining | Projection of Funds to Be Expended in Next Month |
|--|---------------------------|-----------------|--------------------|--|--------------------|---|

Baker Properties Site

Professional Services for the Period 03/09/2019 to 04/05/2019

Services completed during this invoice period include review of data obtained by GHD from the former Phillips 66 parcel, preparation of summary tables and figures, data evaluation, and communications with Landeau.

Aspect's services related to the solvent-contaminated soil/groundwater or the larger "Site" (not solely related to the former Phillips 66 gas station) are presented in a separate invoice.

Professional Services for the Period 02/23/2019 to 03/29/2019

Services provided include:

- Meetings with design team to discuss geotechnical support of remediation
- Evaluation of shoring techniques that will allow for removal of contaminated soil to maximum depths encountered
- Development of geologic cross sections and figures for geotechnical support of remedial excavation
- Project management for tasks in support of environmental remediation

INVOICE

Mt. Baker Housing Association Conor Hansen 2916 S MCCLELLAN ST SEATTLE. WA 98144 Invoice number 32834
Date 04/12/2019

Project 160324 Mt. Baker Housing Assoc. – Mt Baker Properties Site

Professional Services for the Period 03/09/2019 to 04/05/2019

Insurance Carriers: Safeco/Resolute # P21D-451797-01 Zurich # 9120125867

Services completed during this invoice period include:

- Continued preparation of the RI report.
- Began preparation of the Feasibility Study.
- Prepared the Contained-In Determination Request for the 4 parcels on S. McClellan St. and submitted the request to Ecology.
- Attended design team meetings to provide environmental and geotechnical information to support construction design and planning.
- Obtained access to 4 of the 6 residential parcels located south of S. McClellan St and completed the Vapor Intrusion evaluation. This included obtaining indoor air, ambient air, and soil vapor samples from each property (a total of 12 samples), installation and development of two groundwater monitoring wells (AMW-22 and AMW-24), and obtaining groundwater samples from the two wells.
- Prepared for and attended meetings with Ching-Pi Wang and Sandra Matthews of Ecology to discuss the Vapor Intrusion Evaluation plan and results.
- Continued communications with Sound Transit to request access to their property to install a groundwater monitoring well to evaluate the lateral extent of the solvent plume, which included preparation of a letter to send to Sound Transit in response to Sound Transit's March 29, 2019 meeting with Ecology.
- Began planning a dewatering evaluation to support potential groundwater treatment and dewatering during the cleanup action.

Aspect's services related solely to the former Phillips 66 gas station (not related to the solvent-contaminated soil/groundwater or the larger "Site") are presented in a separate invoice.
