Re: Satisfaction of Agreed Order No. DE 15666 for the following Contaminated Site:

- **Site Name:** Chevron 97348
- **Address:** 500 and 504 N. Wenatchee Ave, Washington
(Formerly 502 N. Wenatchee Ave)
- **Facility/Site No:** 15685336
- **Cleanup Site ID No:** 5586
- **Agreed Order No:** DE 15666

Dear Dana Thurman:

Thank you for working with the Washington State Department of Ecology (Ecology) on the Chevron 97348 site (Site). This letter provides written notification that the Scope of Work required at the Site by Agreed Order No. DE 15666 (Order) under the Model Toxics Control Act (MTCA), Chapter 70.105D RCW, has been satisfactorily completed. The Order became effective on April 26, 2018. This letter also describes the next steps for the Site.

Completion of Remedial Actions Required by the Order

Ecology has determined the requirements of the Order have been satisfied. Ecology made this determination pursuant to Section IX (Satisfaction of Order).

The remedial actions required by the Order are specified in Section VII (Work to Be Performed). Chevron U.S.A. Inc. was required to demonstrate through groundwater monitoring that contamination at the Site no longer remains in groundwater at concentrations above MTCA cleanup levels. After inspecting the Site and reviewing the supporting documentation, Ecology has determined the remedial actions in Section VII have been satisfactorily completed.

Next Steps at the Site

Ecology will remove the Site from the Hazardous Sites List (HSL).

Thank You

Thank you for your efforts cleaning up the Site. Should you have any questions, please do not hesitate to contact Ecology's cleanup project manager for this Site, Frank Winslow, at (509) 454-7835 or frank.winslow@ecy.wa.gov.

Sincerely,

Valerie Bound
