RESTRICTIVE COVENANT

Steffen Jacobson/Ann M. Stockton-Northpoint Apt. Site
East side of East Marine View Drive between 10th and 11th Street, Everett, WA

This Declaration of Restrictive Covenant is made pursuant to RCW 70.105D.030(1)(f) and (g) and WAC 173-340-440 by Steffen Jacobson/Ann M. Stockton, its successors and assigns, and the State of Washington Department of Ecology, its successors and assigns (hereafter "Ecology").

An independent remedial action (hereafter "Remedial Action") occurred at the property that is the subject of this Restrictive Covenant. The Remedial Action conducted at the property is described in the following document:

Final Independent Remedial Action Program Report
Northpoint Apartments Site
Everett, Washington
Envirocon, Inc. dated April 30, 2001

This document is on file at Ecology's Northwest Regional Office in Bellevue, Washington.

This Restrictive Covenant is required because the Remedial Action resulted in residual concentrations of arsenic which exceed the Model Toxics Control Act Method Residential Cleanup Level for soil established under WAC 173-340-740.

The undersigned, Steffen Jacobson/Ann M. Stockton, are the fee owners of real property (hereafter "Property") in the County of Snohomish, State of Washington, that is subject to this Restrictive Covenant. The Property is legally described [AS FOLLOWS: (insert legal description language)] -or- [IN ATTACHMENT A OF THIS RESTRICTIVE COVENANT AND MADE A PART HEREOF BY REFERENCE (attach document containing legal description)].

Steffen Jacobson & Ann M. Stockton make the following declaration as to limitations, restrictions, and uses to which the Property may be put and specifies that such declarations shall constitute covenants to run with the land, as provided by law and shall be binding on all parties and all persons claiming under them, including all current and future owners of any portion of or interest in the Property (hereafter "Owner").

Section 1. A 20 foot wide strip on the western side of the slope along East Marine View Drive was excavated to 4-6 feet below ground surface for a landscape strip. A demarcation fabric consisting of 4 oz. nonwoven geotextile was placed at the bottom of the excavation in the landscape area to delineate contaminant removal boundaries for future construction personnel. Soils below this fabric contain arsenic that exceeds 500 mg/kg (parts per million). This area of arsenic contaminated soils is covered with a minimum of four feet of clean fill material and serves to prevent direct contact with the contaminated soil. In addition, the demarcation fabric serves to delineate the boundaries for future site development.

Any activity on the Property that may result in the release or exposure to the environment of the contaminated soil that was contained as part of the Remedial Action, or create a new exposure pathway, is prohibited.

Section 2. Any activity on the Property that may interfere with the integrity of the Remedial Action and continued protection of human health and the environment is prohibited.

Section 3. Any activity on the Property that may result in the release or exposure to the environment of a hazardous substance that remains on the Property as part of the Remedial Action, or create a new exposure pathway, is prohibited without prior written approval from Ecology.

Section 4. The Owner of the property must give thirty (30) day advance written notice to Ecology of the Owner's intent to convey any interest in the Property. No conveyance of title, easement, lease, or other interest in the Property shall be consummated by the Owner without adequate and complete provision for continued maintenance of the soil cover.

Section 5. The Owner must restrict leases to uses and activities consistent with the Restrictive Covenant and notify all lessees of the restrictions on the use of the Property.

Section 6. The Owner must notify and obtain approval from Ecology prior to any use of the Property that is inconsistent with the terms of this Restrictive Covenant. Ecology may approve any inconsistent use only after public notice and comment.

Section 7. The Owner shall allow authorized representatives of Ecology the right to enter the Property at reasonable times for the purpose of evaluating the Remedial Action; to take samples, to inspect remedial actions conducted at the property, and to inspect records that are related to the Remedial Action.

Section 8. The Owner of the Property reserves the right under WAC 173-340-440 to record an instrument that provides that this Restrictive Covenant shall no longer limit use of the Property or be of any further force or effect. However, such an instrument may be recorded only if Ecology,

after public notice and opportunity for comment, concurs.
