**Re: No Further Action at the following Site:**

- **Site Name:** Ernie's Fuel Stop-Diesel Spill
- **Site Address:** 1810 East Kittleson Road, Moses Lake, WA
- **Facility Site ID number:** 620
- **Cleanup Site ID number:** 7022

Dear Mr. John Sugg:

Washington Department of Ecology's (Ecology) Toxics Cleanup Program has reviewed the following information regarding the above described facility/property:

1. Removal Action Report, Ernie's Fuel Stop Moses Lake, Diesel Spill-Final, Aspect Consulting, April 16, 2019.

Based upon the above-listed information, Ecology has determined that the release(s) of *petroleum into soil* does not pose a substantial threat to human health or the environment. Therefore, Ecology is issuing a NFA determination under the Model Toxics Control Act (MTCA)<sup>1</sup>.

This NFA determination is made only for releases identified in the independent remedial action report(s) listed above and applies only to the area(s) of the property affected by those releases. The NFA does not apply to any other release or potential release at the property, any other areas on the property, nor any other properties owned or operated by Reinhard Distributing Co., Inc.

Because your actions were not conducted under a consent decree this letter is offered as informal assistance and advice<sup>2</sup> and does not constitute a MTCA settlement<sup>3</sup>, therefore this

---

<sup>1</sup> RCW 70.105D

<sup>2</sup> RCW 70.105D.030(1)(i)

<sup>3</sup> RCW 70.105D.040(4)

NFA determination is not binding on Ecology. Should additional information indicate that further action under MTCA is necessary, Ecology may re-evaluate the site.

Should you have any questions regarding this decision, please contact me at (509) 329-3535.

Sincerely,

Sara Fulton  
Initial Investigator  
ERO Toxics Cleanup Program
