Re: Old Machine Shop  
Weyerhaeuser Lumber  
Mill "E" Site  
Everett, Washington

Dear Ms. Friedman-Thomas:

Beazer Materials and Services Inc. (BM&S) received information requested from the Department of Ecology regarding the above-referenced site on November 9, 1989.

The information provided indicates that BM&S (formerly Koppers Company, Inc.) operated a wood treating facility on 6.6 acres of land on the southern end of Mill B for a period of 7-1/2 years. An investigation conducted by our Law Department revealed that BM&S leased 6.6 acres of land from Weyerhaeuser for a wood treating facility and also had a treating agreement with Weyerhaeuser.

Our investigation is continuing and we are requesting Weyerhaeuser, by copy of this letter, to provide BM&S with a complete copy of the Hart Crowser Environmental Assessment and Site Characterization Work Plan Weyerhaeuser Old Machine Shop and copies of all records in their possession related to BM&S' operations at this site.

November 21, 1989  
Rachel Friedman-Thom  
2.

Based upon the information currently available to us, BM&S does not believe it should be considered a Potentially Liable Party at this site.

Very truly yours,

Babette Magee
