Reported_Source: MANUFACTURER
Reported_Cause: HUMAN FACTOR - INTENTIONAL
Reported_Activity: DUMPING
Reported_Impact: WATER POLLUTION
Reported_Vessel_Name:
Reported_Vessel_Type: Unknown

Reported_More_Info: Manke lumber, is illegally dumping and disposing in the ground on average 200 gallons of used motor and hydraulic oil, miscellaneous fuels and antifreeze. This has been going on for many years. The oils are also being dumped into the bark bins which get put into peoples and commercial property. Nick Axtmen and Dave Johnson of the Sumner mill location are responsible for this. If an employee refuses to illegally dispose of the chemicals in the ground then that employee will lose there job. Also, there is a river running through the property. The White river and these chemicles and pollutants have been leaching into the river for many years. Manke Lumber Co Inc illeggaly burries and disposes all waste chemicals into the ground. The have no other practice of disposing. It is an environmental concern.
