Re: Request for Information on Status of VCP Project for the following Site:

- **Site Name:** North Woodinville 195 LLC
- **Site Address:** 13820 NE 195th Street, Woodinville, WA 98072
- **Facility/Site No.:** 1947253
- **CS ID:** 12085
- **VCP Project No.:** NW2701

Dear Mr. Kao:

The Department of Ecology (Ecology) appreciates your decision to clean up the **North Woodinville 195 LLC** facility (Site) independently. This letter is a reminder about the project and that Ecology is committed to assisting you in reaching site closure. In order to do that, we are requesting information on the status of your cleanup and your continued interest in the Voluntary Cleanup Program (VCP).

Due to the high volume of interest in the program, Ecology has made a few changes to ensure our resources are aligned with current VCP project needs. Ecology is requiring that sites are actively conducting remedial actions and that a request for an opinion on current work is pending. Also, that a schedule of work is submitted showing a committed interest to remain in the VCP to continue receiving Ecology assistance in the near future.

Our records indicate that the last information Ecology received was a meeting held with you and your consultants on July 27, 2017. A brief summary of remedial work, and a proposed schedule for preparation of a Cleanup Action Report was presented at the meeting. It was anticipated that the report would be presented to Ecology with a request for opinion in approximately two to three months from the July 27, 2017 meeting. Our records indicate that we have not received information on any actions conducted at the Site; nor the report.

Request for Information

Please submit the following information to Ecology within 30 days of the date of this letter so we are able to continue to assist you on this project:

Mr. Roger Collins
June 19, 2018
Page 2

1. **Any reports documenting the cleanup or other associated activities.** Please use Ecology's Remedial Investigation Checklist or other appropriate checklist for cleanup reports submitted. This ensures that all the required information will be included. The checklists are located at: <http://www.ecy.wa.gov/programs/tcp/vcp/Vcpmain.htm>
2. **A work plan and schedule for completing the cleanup.** The schedule for completing cleanup actions must be included with your response and should include significant milestones, such as remedial investigation results, quarterly ground water compliance monitoring events, feasibility study evaluations, and anticipated submittal of documents and requests for Ecology opinions. Contingencies and alternative approaches should be identified if the cleanup is not progressing within the expected time frame.

Next Steps

Based on your response, Ecology may contact you to discuss whether continuing participation in the VCP is warranted at this time. If the VCP is terminated, you can always re-apply in the future when more remedial activities have occurred or a request for opinion is needed. Ecology's decision to terminate participation will be provided in writing. **Please note that if no response is received within 30 days of the date of this letter, Ecology may close the VCP Agreement governing this project.**

Contact Information

We are committed to working with you to accomplish the prompt and effective cleanup of the Site. If you have any questions about this request, please contact me at 425.649.4422 or by email at gcar461@ecy.wa.gov.

Sincerely,

Glynis Carrosino, VCP Project Manager
