**Re: Final Phase I Environmental Site Assessment  
601 Dexter Property  
601 Dexter Avenue North  
Seattle, Washington  
19449-00**

Dear Ms. Capelle:

This letter report presents the results of our Phase I Environmental Site Assessment (Phase I) at the 601 Dexter property (Property), located at 601 Dexter Avenue North, in Seattle, Washington. The Property is a single King County tax parcel (2249000100) and contains a structure that Copiers Northwest, an office technology products and services business, occupies. The property also includes an asphalt paved parking lot for its customers and employees, located in the northeast corner of the Property. We understand you are under contract with the current owner, Base Properties LLC, to purchase the Property and are conducting your due diligence.

Our Phase I describes the current conditions and past practices at the Property and evaluates the likelihood that potentially adverse environmental conditions may be present. This work was completed in general accordance with our scope of work dated March 27, 2019; American Society for Testing and Materials (ASTM) E1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process; and the All Appropriate Inquiry (AAI) Final Rule of 40 Code of Federal Regulations (CFR) 312.

This report begins with a section titled "Summary of Findings and Recommendations," followed by:

- Scope of Work;
- Property Description;
- Geology and Hydrogeology Summary;
- Historical Characterization;
- Regulatory Agency Database List Review;
- Site Reconnaissance;
- Interviews;
- Vapor Intrusion;
- Data Gap Analysis;

- Environmental Professionalism Statement; and
- Limitations.

Figure 1 (Vicinity Map) shows the location of the Property. Figure 2 (Site Plan) shows prominent property features and photograph locations. Photographs taken during our site reconnaissance are in Appendix A. The Environmental Data Resources Inc. (EDR) environmental database site assessment radius report is in Appendix B. Historical aerial photos are in Appendix C. Sanborn Fire Insurance maps and Kroll maps are in Appendix D. Reverse city directories are in Appendix E. Copies of information from the King County Assessor website are found in Appendix F.

## Summary of Findings and Recommendations

Our summary of findings presents current, controlled, or historically recognized environmental conditions (RECs) identified on the Property or adjacent sites. REC definitions from the ASTM E1527-13 guidelines are given below.

**REC.** “The presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.”

**Controlled REC.** “A recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.”

**Historical REC.** “A past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls.”

We have performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E1527 on the 601 Dexter property, located at 601 Dexter Avenue North, Seattle, King County, Washington. Any exceptions to, or deletions from, this practice are described in the Data Gap Analysis section of this report.

This assessment revealed the RECs described below in connection to the Property.

### Recognized Environmental Conditions

Our historical research and the database search identified RECs on the Property.

- Historical records between 1930 and late 1950s identified a laundry/cleaner business (Sanitary Laundry Co. and Sanitary Olympic Laundry) in the 1930s to 1940s and a gas station in the 1940s to the late 1950s. A boiler was added to the Property for the laundry facility according to 1928 records. Due to historical operations conducted onsite, there is a potential for past releases or spills from these previous land uses.
- A building materials business Colotyle Corporation occupied the entire building (and the building to the north) in the 1940s through the 1950s at 700 Mercer. Other occupants listed on the Property after the Colotyle Corporation include Colfanite Products (varnish manufacturer), Building Materials, and Domestic Supply Company. Based on general light industrial types of businesses such as these listed, the historical occupants are identified as a REC for the Property due to the likely past use and storage of petroleum and chemicals in their processes.
- The adjacent parcel to the northeast (2249000285), identified as 700 Dexter Avenue North, was once occupied by a large laundry and dry-cleaning facility, and at one point, a gas station. Soil and groundwater contamination on this site have been documented and the site is currently undergoing additional interim remedial actions under a consent decree with the Washington State Department of Ecology (Ecology) and the current owner, BMR-Dexter, LLC. Although this site is considered downgradient, there is evidence of releases of contaminants to the groundwater and is confirmed to have migrated off site.
- The 1940 Kroll map indicated a service station adjacent and upgradient to the north at 621 Dexter.
- The adjacent, downgradient property to the east (2249000080 and 2249000055), identified as the Broad Block, indicated three former gas stations in the historical review as previous tenants on this site. One located in the southwest corner, and two in the northwestern corner. One of two fuel underground storage tanks (USTs) were removed from the site with the remaining UST possibly still located in the northwestern corner of the property. A former building, identified as 800 Mercer, had a 1,000-gallon diesel UST. During the construction of the underpass (below Dexter Avenue North), fill material from unknown sources were used during its construction. This site has documented groundwater contamination of PCEs from the American Linen site.
- A laundry service facility (Mutual Laundry) was documented in the 1917 Sanborn Map at 705 Mercer Street and a gas and oil structure in the 1950 Sanborn Map at the same address, approximately 200 feet to the south of the Property. This site is considered a REC due to its proximity and potential risk of past releases from laundry cleaners and gas stations.
- Seattle Fire Department records indicated four USTs containing heating oil and bunker fuel located in the alleyway north of the Property. The USTs were reportedly pumped and rinsed in 1997. No

further records of the USTs were listed in any other documentation. The unknown status of the USTs is considered a REC.

- The 1950 Sanborn map identifies four steel solvent tanks totaling 2,000 gallons in the alleyway north of the Property. No further records of the USTs were listed in any other documentation and the status of the four tanks remain unknown. It is not known if the four USTs are the same as the previously mentioned USTs documented by the Seattle Fire Department.
- The 1950 Sanborn map identifies a plastic mixing facility within the eastern building of the adjacent site to the north. Colotyle Corporation was also a tenant at this adjacent site during this period.
- The proximity of documented adjacent and nearby USTs containing solvents and petroleum products, gas stations, laundry cleaners, and sites with confirmed contamination places the Property at risk for soil and groundwater impacts as well as vapor intrusion.
- Results from a 2018 Shannon and Wilson Phase II ESA identified gasoline-range petroleum hydrocarbon (TPH-G) concentrations in soil and groundwater above and below Model Toxics Control Act (MTCA) Method A Cleanup level in isolated areas on the site to the north, across the alley. Other constituents tested including heavy oil-range petroleum hydrocarbons, RCRA 8 Metals, PAHs, and VOCs had detected concentrations below MTCA Method A cleanup levels. Diesel-range total petroleum hydrocarbons (TPH-D) were not detected in any soil sample tested. The recent Hart Crowser subsurface soil and groundwater investigated conducted on the adjacent site in March and April 2019 indicated similar isolated areas of petroleum-related impacts in soil and groundwater. The results from these Phase IIs are presented in separate reports.

### ***Recommendations***

A Phase II environmental site assessment of soil and groundwater should be conducted to assess whether on-site or off-site past uses have impacted the Property. In addition, a soil vapor investigation should be conducted to further evaluate for potential vapor intrusion on the Property.

### **Additional Conditions of Interest (non-RECs)**

While not RECs, the conditions of interest below were noted.

### ***Hazardous Building Materials (HBM)***

Based on the age of the building and observations during the site reconnaissance, the results of a Limited Hazardous Building Materials (HBM) survey in 2018, and a visual survey conducted in 1997, and a HBM due diligence survey conducted by Med-Tox Northwest in May 2018, there is known asbestos-containing material (ACM) in existing building materials on the Property, primarily in black mastic and grey leveling compound. Asbestos was also confirmed in torch down roofing and grey window caulking.

Other building materials found to contain asbestos (Chrysotile, Crocidolite, and Amosite) included pipe insulation; mudded pipe elbows, canvas on black tar paper on corrugated cardboard, and thermal system insulation (TSI). Other assumed ACM included older HVAC units (south roof), wall-mounted gas heaters, electrical panels, and fire doors.

Lead-based paint was confirmed in white paint on white plaster walls and masonry brick walls; white paint on wood trim; beige paint on masonry walls; and brown paint on steel.

Other HBM identified in the building included regulated metal components such as barium, chromium, and lead in the masonry mortar and mercury-containing fluorescent light tubes and thermostat.

### **Recommendations**

Prior to demolition or remodel of the existing building and the vacating of the building, additional destructive sampling should be conducted to supplement the existing data. The limited HBM survey can be used as a baseline and additional destructive sampling and analysis should be performed as necessary to complete an AHERA-level demolition survey. This destructive-type of survey must be conducted, and all regulated materials need to be abated.

In the event of future building demolition or remodeling, any discovered HBM should be disposed of in accordance with current regulations.

## **Scope of Work**

Our Phase I included:

- Conducting a historical review of the Property and surrounding area;
- Reviewing regulatory agency database lists and governmental websites for the Property and adjacent sites, and conducting a file review;
- Conducting a site reconnaissance to observe the Property and surrounding sites;
- Interviewing knowledgeable persons and reviewing available environmental information; and
- Preparing this letter report presenting the findings of our work.

## **Property Description**

The Property is located at 601 Dexter Avenue North, in Seattle, and is bounded by an alleyway and 601 Dexter Avenue North property to the north, Dexter Avenue North to the east, Mercer Street to the

south, and Aurora Avenue North to the west (Figure 1). The Property consists of a single King County tax parcel (2249000100) approximately 23,632-square-feet (0.54 acres).

The Property contains one structure, though the original structure (west side) was constructed in 1919 and expanded to the east in 1941 and 1943. Extensive remodeling occurred in the 1960s and 1980s. An asphalt-paved parking lot and loading dock are located on the northeast corner of the Property.

The abbreviated legal description from the King County assessor website is:

EDEN ADD LESS ALLEY LESS ST  
PLat Block: 3  
Plat Lot: 1, 2, 7, and 8

The Property is bounded by:

- An office and warehouse building/property owned by the City of Seattle and currently leased by Copiers Northwest to the north, across an alleyway between the two buildings;
- Vacant lot owned by the City of Seattle to the east across Dexter Avenue North, recently used as a staging area for construction equipment and materials by a general contractor; and
- Aurora Avenue North (State Route 99) to the west.

The surrounding sites are generally used for commercial purposes.

## Geology and Hydrogeology Summary

The Property is within the central portion of the Puget Sound lowland physiographic province of Washington State. The Puget Lowland is a north–south trending depression bounded on the east and west by the Cascade Range and Olympic Mountains, respectively. This area has been glaciated repeatedly during the past 2 million years. The last glacial advance and retreat known as the Vashon Stade of the Fraser Glaciation ended approximately 10,000 to 13,000 years ago. Topography of the lowland is characterized by generally north–south trending ridges and valleys that are the result of glacial scouring. These ridges and valleys have been modified by postglacial erosion and deposition. The region is typically underlain by glacial till, which ranges from a gray, gravelly, sandy silt to a silty sand, and is typically very dense.

Our understanding of the Property’s geology and hydrogeology is based on the recent drilling program and investigations conducted by Hart Crowser and others nearby. The Property is approximately at an elevation of 50 feet above sea level and is mostly topographically flat, though slightly sloped towards the east on the eastern portion of the parcel.

Previous explorations conducted on the Property indicate that subsurface geologic units are homologous across the Property. The Property is underlain by a layer of artificial fill over competent

glacial till and advance sand deposits. Coarse to medium-grained sandy fill reach 12 feet below ground surface (bgs) and silty sand with gravel further below to 20 feet bgs.

The explorations previously advanced on the Property found groundwater at 35 feet bgs at the southeast corner of the parcel and 25 feet bgs in the alleyway. Based on groundwater level borings taken around the Property, the Property may be characteristic of perched groundwater, as other explorations at equivalent depths did not observe groundwater.

## Historical Characterization

We researched the history of land use on the Property and adjacent sites to identify potential sources of contamination. Our historical review was developed from the following sources:

- Aerial photographs (EDR 1936, 1943, 1965, 1969, 1977, 1980, 1985, 1990, 2006, 2009, 2013, and 2017; King County iMap 2007, 2012, 2015, and 2017; and Google Earth 2016);
- Sanborn fire insurance maps (EDR 1893, 1905, 1917, 1950, and 1969);
- King County tax assessor records;
- Kroll Maps (1926, 1940, 1960, and 1998)
- Puget Sound Regional Archives;
- Previous environmental reports;
- Reverse city directories (EDR R.L. Polk Co. 1920 through 1996; Pacific Northwest Bell Telephone Company 1971; Cole Information Services 2005 through 2013; and EDR Digital Archive 2010 and 2014); and
- Interviews with Russ Funk, facilities manager of the Property, and Mark Petrie, owner representative for the Property.

Dates in the text refer to historical records and indicate approximately the period of operation for each business or activity identified, except where explicitly stated otherwise. No chain of title documentation was available for review. We did not conduct an environmental lien or activity and use limitations (AUL) search.

## Property

Sanborn maps from 1893 through 1917 shows the Property is vacant except for a small shack on the 1905 Sanborn map. According to state assessor records, the buildings currently occupying the Property

were constructed in 1919 and offices in 1962. Notable tenants of this site include Modern Automobile and Tractor School (1920), Dexter Cabinet Works (1925), Sanitary Laundry (1930), Colotyle Corporation (1940), and Electrol Oil Burner Co. (1944). A boiler was added to the Property for laundry services according to 1928 records. A small gas station, listed at 607 Dexter Avenue, was present on the Property according to 1935 and 1940 city directory records and aerial photography taken in 1941 shows a small building on the southeast portion of this parcel. By 1950, the Sanborn map shows the Property has been covered by a parking lot. Four steel solvent tanks totaling 2,000 gallons were also identified in the 1949 Sanborn map north of the Property in the alleyway. The Sanborn map in 1969 shows this adjacent parcel occupied by an electric appliance warehouse. Seattle Fire Department records indicated four USTs containing heating oil and bunker fuel were located in the alleyway north of the Property. The USTs were reportedly pumped and rinsed in 1997 though no further records of the USTs were listed in any other documentation. At present, Copiers Northwest occupies the Property.

The King County tax assessor records do not indicate that that the Property has been recently sold or purchased.

## Surrounding Sites

**Northern (Parcel 2249000120).** The 1893 Sanborn map shows dwellings and residential units were on the north and northwestern portion of this site. By 1926, the southern half of the current building was constructed with the northern and east portions finished in 1945. The earliest records of occupants were Rix Sandpaper, Seattle Hardwood Floor Co. and a restaurant occupied the southern building in 1935 according to the City of Seattle (City) directory. An additional tenant; Brown Bridge Mills was added to the parcel by 1940. The northern portion of the building was constructed prior to 1950, occupied by the Colotyle Corporation and Seattle Hardwood Floor Co. The 1950 Sanborn map shows plastic mixing in the eastern section of the building, Masonite storage, and storing activities. City directory in 1951 shows Parker Henry Glass Company as a tenant; Acme Restaurant Supply and Pac Bowling and Billiard Company in a 1955 City directory; Jr Achievement of Seattle in a 1960 City directory; Contour Laminates Inc. Manufacturing in a 1966 City directory; Domestic Supply Wheel in a 1980 City directory. Woodworking is shown on the 1969 Sanborn map, which could imply Contour Laminates Inc. Manufacturing as the tenant. A tenant named Zig Zag operated on this site between 1992 and 1994 with no known site use. In 2002, Dress for Success was a tenant, according to fire department records. Copiers Northwest has since been the tenant. In 2005, a fire burned down the eastern portion of the building. The 2006 aerial photograph shows the eastern portion has been replaced with a parking lot.

**Eastern Site (Parcels 2249000080 and 2249000055).** The earliest record of this site is the 1893 Sanborn map, showing a residential dwelling and stable on this site. The 1905 and 1917 Sanborn maps show this site with multiple dwellings and smaller buildings or storage sheds. The 1930's through 1950's aerial photograph shows Broad Street running northeast to southwest diagonally through this property. Listed at 610 Dexter Avenue North, a gas station resided at the southwest portion of the Property between

1935 and 1940, according to reverse city directories. Drawings of the Property show two fuel USTs near the northwest portion of the Property. A fuel tank is marked as decommissioned and removed while the second 6-foot-diameter UST remains onsite. Businesses such as an automobile repair shop, gas tank, paint and sign company, and restaurant appear on the 1950 Sanborn Map. Two gas stations, Harder S Shell Service and Rogge Otto were on this property, according to EDR records. Three residential buildings remain on the southeast corner of this property. Aerial photography in the 1960's shows the northeast to southwest road on this property constructed into an underpass that extends into 9th Avenue North, as well as capillary routes leading to Roy Street, Mercer Street, and 9th Avenue North. The 1969 Sanborn map and aerial photography shows a parking lot replaced the residential dwellings and commercial buildings to the south of the highway. Two auto upholsteries and a store remain in the northern portion of this parcel. Aerial photography in 1977 shows the buildings in the northwest corner of the Property demolished. Between 1980 and 2009, there have been no significant changes to this site. In 2012 and 2013, aerial photographs show the underpass was rerouted and lifted from the intersection of 9th Avenue North and Roy Street to merge with traffic on Mercer Street as the Mercer Corridor. In 2014, aerial photography shows the underpass and corridor backfilled, with all roadways within this site removed. This property is then used as a construction staging area. The Property remains in this formation until May 2019, after most of the construction material and equipment have been removed.

**Southeastern Site (Parcel 1988201410).** The parcel is located across Mercer Street to the SE and was vacant from 1893 through 1917, as shown by the Sanborn Maps. The 1950 Sanborn map shows this parcel was occupied by a lumber storage yard. Aerial photography taken in 1953 and 1956 show there are two buildings on the southwestern half of the property and the northern half of the parcel is vacant. A Peoples National Bank building was constructed with an oil burner in 1956 according to tax assessor records. Aerial photography taken in 1965 show a building constructed in the northwestern corner. Sanborn map documents the building as a bank in the 1969 drawing. From 1956 through 2009, no changes are observed from aerial photography. The 2011 aerial photography shows the southwestern buildings have been demolished with assessor records confirming the demolition in 2012. The northern building was demolished sometime before 2014 with road improvements covering the northwestern portion of the parcel. Construction of two multistory buildings were completed in 2018 as the site appears at present.

**Southern Site (Parcel 1988201215).** The parcel is located south across Mercer Street and the Sanborn maps from 1893 through 1917 show the parcel as vacant. Aerial photography taken in 1936 shows a building on the parcel. EDR data report states that there was a gas station on the parcel in 1930. The 1943 aerial photography shows the building removed in the parcel. The current structure on this site was constructed in 1948, according to tax assessor records. Sanborn map of the parcel in 1950 show the parcel was occupied by the Peoples National Bank. PSRA records identify an oil burner within the Peoples National Bank. From 1961 through 1970, Seattle Seamen's Center occupied the property, according to city directories and PSRA records.

**Western Site (Parcel 2249000150).** This parcel is located west across Aurora Avenue North and the earliest record of development on this parcel comes from King County tax assessor with which the current building was constructed in 1941. Prior Sanborn maps and aerial photography show no development on this property. The 1950 Sanborn map shows the building contains an oil truck garage and an oil burner sales and service shop. An office and storage area are also occupants within the building. The 1969 Sanborn map shows the entire building is used as an electronics shop and the northern building has been extended to the north. The 1970 and 1975 City directory identifies Frye Louise Property Management, Stewart Hubert Architect, and Roxebury Construction Corp. as tenants. In the 2008 City directory, the Church of Scientology, AlphaGraphics, and Citizens Commission on Human Rights as tenants. The 2013 City directory lists Rhino Linings as a tenant. Currently, Emerald City Tint is the only tenant in this property.

The EDR Radius Map Report lists historical automotive service stations and cleaners in the neighborhood (within 1/8 mile). These listings included on the EDR Radius Map Report are provided by EDR as historical information that they gleaned from their database of City Directories. The listings are not considered regulatory database listings unless they are identified as such in the EDR Radius Map Report. Review of the EDR report listed the following nearby sites on their historical automotive service stations and dry cleaners lists:

- Gale R E and Son, aka Witt Vernon G, aka Young Jack W at 607 Dexter Avenue. Gasoline and service station in 1930 to 1941.
- Jim S Auto Electric and Shell Service at 650 Dexter Avenue. Gasoline station documented operating in 1960.
- Rogge Otto at 610 Dexter Avenue. Gasoline and oil service station in operation in 1940.
- International Auto Service at 617 Dexter Avenue. Automobile repair from 1975 through 2014.
- Kitchell Geo T, aka Sunbeam Service Station, aka Dowling GEO H Jr, aka Tatum Samuel P, aka Kitchel Geo T, aka Shauer and Wallberg, aka Fess Oil Burner Co at 621 Dexter Avenue. Gasoline station and automobile repairing service station from 1930 through 1944.
- Maryatt Electric Laundry Avenue North at 8th Avenue and Roy, aka Miaryatt Electric Laundry, aka America Linen Supply Co. Laundry service station from 1925 to 1944. (This site is now the American Linen Supply Co, and is discussed below.)

## Regulatory Agency Database List and File Review

EDR is a firm that acquires data from government agencies and maintains and reviews proprietary database lists derived from business directories for historical automobile service stations and dry

cleaners. This section describes the regulatory agency database lists that EDR reviewed for sites of concern. The purpose of the regulatory agency database list review was to screen for potential sources of contamination or activities of environmental concern for the Property and adjacent sites. The agency-published databases were screened for sites of potential concern in general accordance with current ASTM standards. The review was limited to current files and did not include archived information. EDR's regulatory agency database search was limited to current agency records, and results are only as accurate as the records provided.

Regulatory agency database lists EDR reviewed and approximate search distances from the Property are listed below.

<b>EPA Lists</b>	<b>Search Radius</b>
National Priorities List (NPL)	1 mile
Delisted NPL sites	1 mile
Proposed NPL sites	1 mile
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and its Information System (CERCLIS) list	0.5 mile
CERCLIS No Further Remedial Action Planned (NFRAP) list	0.5 mile
<b>EPA Lists</b>	<b>Search Radius</b>
Federal Resource Conservation and Recovery Act (RCRA) Corrective Action Report (CORRACTS) list	1 mile
Resource, Conservation and Recovery Information System (RCRIS) Transporters, Storage, and Disposal (TSD) facilities	0.5 mile
Generators, transporters, and handlers (SQG, LQG, CESQG, NonGen)	0.25 mile
Facility Index System/Facility Registry System (FINDS)	0.5 mile
Institutional and Engineering Controls (INST CONTROL) lists	0.5 mile
Emergency Response Notification System (ERNS) list	Property
<b>Ecology and Tribal Lists</b>	<b>Search Radius</b>
State Hazardous Sites List (HSL)	1 mile
Ecology Confirmed and Suspected Contaminated Sites List (CSCSL)	1 mile
Ecology and Tribal Voluntary Cleanup Program (VCP) sites	0.5 mile
Solid Waste Facilities/Landfill (SWF/LF) list	0.5 mile
Ecology Independent Cleanup Reports (ICRs)	0.5 mile
Ecology and Tribal underground storage tank (UST) lists	0.25 mile
Ecology and Tribal leaking underground storage tank (LUST) lists	0.5 mile
Brownfields list	0.5 mile

The EDR report is provided in Appendix B. It includes a list of databases searched, a statistical profile indicating the number of properties within 1 mile of the Property, selected detailed information from federal and state lists, and an overview map illustrating the identifiable and mappable sites within 1 mile

of the Property. The EDR report contains more detailed information and describes additional local database lists reviewed.

Sites listed in the EDR report often are included on the ALLSITES or FINDS listings. The ALLSITES listing indicates that the Washington State Department of Ecology (Ecology) has information on facilities and sites of interest. The FINDS listing indicates facility information and “pointers” to other sources that contain more detail.

The purpose of a file review is to acquire regulatory agency file information for the Property and adjacent sites of potential concern, based on their database-type listing, and to identify potential sources of contamination or activities of environmental concern. Only current and available files posted on Ecology’s website were reviewed; archived information is not reviewed. Information from the file review is included below.

The listings identified through our review of the EDR report are described below.

## Property

The following listings were found for the Property:

- **Quik Sign Inc., aka Copiers Northwest at 601 Dexter Avenue North (ALLSITES, RCRA NonGen/NLR, FINDS, ECHO).** This site is listed as a non-generator of RCRA waste at this time. There were no indications of releases or violations in the regulatory report.
- **605 Dexter Ave and Furniture Company 605 Dexter Avenue (INCIDENT COMMONS, SPILLS).** This listing was a complaint describing Gusto Furniture pouring an unknown material into a parking lot storm drain.
- **Utilities Inc 605 Dexter Avenue North (FINDS, ECHO, ALLSITES, RCRA NONGEN/NLR).** This listing was small quantity generator of hazardous waste though received a RCRA Non-Generator status in 2004.
- **Seattle DOT Dexter Parcel, 615 Dexter Avenue North (CSCSL, ALLSITES).** This listing is a confirmed petroleum-gasoline contamination above cleanup levels in soil and groundwater. As of the development of this Phase I report, this listing states that it is awaiting cleanup.
- **Fess Oil Burner Co., aka Sunbeam Service Station, aka Dowling Geo H Jr, aka Tatum Samuel P, aka Kitchell Geo T, aka Shauer and Wallberg (HIST AUTO) listings at 621 Dexter Avenue from 1930 to 1944.** These listings indicated gasoline and oil service stations and automobile repairing. No regulatory information of these listings was included in the EDR report.

- **International Auto Service (HIST AUTO).** This listing in 1975 was at 617 Dexter Avenue as an automobile repair shop. No regulatory information of this listing was included in the EDR report.

## Surrounding Sites

The EDR report was reviewed for adjacent sites as well as surrounding sites within 1/8 mile of the Property located in the apparent upgradient or cross-gradient groundwater flow direction and with reported releases of contaminants to soil and/or groundwater.

Surrounding agency-listed sites in the area are:

- **American Linen Supply Co., aka Maryatt Electric Laundry, aka Maryatt Industries at 700 Dexter Avenue (RCRA-LQG, EDR Hist Cleaner, HAZWASTE, TOXICS).** This nearby site is hydrologically down-gradient to the northeast of the Property. This site has a history of contamination because of laundry and dry-cleaning services previously operated by American Linen and Maryatt Industries. SES prepared an interim action work plan of this site in 2018 noting dry cleaning fluids and gasoline have contaminated soil, soil vapor, and groundwater. The plan also lists tetrachloroethylene, trichloroethylene, Cis-1,2-dichloroethene, vinyl chloride, and benzene as chemicals of concern. Sampling conducted from 1989 through 2017 indicated contaminated soils with TPH-G and PCE centrally located in the northern half of this site.

In 2013, a partial cleanup effort was initiated using electrical resistance heating/soil vapor extraction to remediate the onsite PCE. A monitoring well was installed in the Dexter Avenue North right-of-way east of the Property showed non-detect concentrations for TPH, BTEX, PCE, and TCE. Based on the groundwater flow direction, soil, and groundwater analytical results, this site appears to present a moderate risk to the Property as a down-gradient adjacent site and high level of contamination.

## Orphan Sites

EDR cannot resolve all addresses based on information available in regulatory databases. These unmapped sites are known as orphan properties. EDR reported 11 sites as orphan sites. We researched the unmapped sites online and reviewed the information EDR reported to assess whether they posed potential environmental threats to the Property. Our research indicated that none of the orphan listings were an environmental risk to the Property.

## Site Reconnaissance

On March 27, 2019, Julie Wukelic and Christie Kroskie of Hart Crowser conducted a site reconnaissance on the Property and the surrounding area. Ms. Wukelic and Ms. Kroskie were accompanied by the Property Facilities Manager, Russ Funk. Mr. Funk responded to questions regarding the recent history of

the Property and building. Photographs taken during the site reconnaissance are presented in Appendix A and referenced on Figure 2. The observations below were recorded.

## Property

The Property is rectangular, bounded by an alleyway and 601 Dexter Avenue property to the north, Dexter Avenue North to the east, Mercer Street to the south, and Aurora Avenue North to the west. The Property is currently occupied by Copiers Northwest. The showroom and reception area are located in the eastern portion of the building with an entrance into the building on the north wall, closest to Dexter Avenue North (Photograph 2). The showroom is carpeted and has a large window overlooking the intersection of Mercer Street and Dexter Avenue North (Photograph 5). A carpeted hallway, meeting rooms, and offices comprise the eastern portion of the building moving west (Photographs 6 and 7). The area was neat and tidy and updated. The lunchroom had vinyl floor tile floor and located near the south side of the building, adjacent to Mercer Street. The ceilings were high in some areas and acoustical drop ceiling panels occupied other areas of the room (Photograph 8). Dropped ceiling panels were noted throughout (Photograph 9) though some areas had full ceilings. Exposed brick columns (painted white) were visible in the building (Photograph 12). Dozens of orderly cubicles (Photograph 10) and meeting rooms were observed. Storage of miscellaneous items were observed on shelves in the back room (Photograph 11) on the north side and near the loading dock interior door (Photograph 12). The parking lot bordering Dexter Avenue North is on the eastern portion of the Property and the main entrance into the building is on the northern exterior (Photograph 2) and the loading dock is located on the eastern exterior (Photograph 1). The alleyway is a public right-of-way, though it does not go all the way through. It is primarily used for parking on the east end (Photograph 14) and is not considered part of the Property.

The asphalt parking lot in the northeast portion of the Property is in moderate condition. The parking lot was almost full of employee and customer vehicles. There were cracks visible on the south side of the parking lot.

Mr. Funk mentioned that the existing building went through major renovations in the 1980s after tenants' leases expired and Copiers Northwest expanded into more space. He was not aware of any remaining USTs and did not recall if any USTs remained on the Property. There was no obvious evidence of USTs noted during the site reconnaissance.

## Site Vicinity

As part of the site reconnaissance, we observed adjoining sites and surrounding areas for activities or features that might indicate the potential for contamination to the Property. Our observations were limited to what we could view from the Property and public rights of way.

The site vicinity consists primarily of commercial buildings, major thoroughfares, apartments, warehouses, and construction sites. A construction site for the previous American Linen site is located to the northeast of the Property at 700 Dexter Avenue North. Major construction is underway at the former American Linen site, including pre-construction environmental interim action activities. To the east is undeveloped property and, until recently, was being used as a construction staging and storage area for the Tunnel project. To the north is the adjacent City of Seattle Property, leased by Copiers Northwest property (615 Dexter Avenue North). To the west and northwest of the Property are several commercial buildings and a vacant lot across Aurora Avenue North. To the south is Mercer Street and a grassy area with a commercial building and parking lot.

The 615 Dexter Avenue North building is an older building in moderate condition. The alley adjacent to the north (Photograph 14) that separates the two neighboring buildings is the location of the former USTs that have been reportedly decommissioned. Utilities and patches are visible on the asphalt alley surface.

The exteriors of the surrounding businesses and the surrounding landscaping appeared to be in good condition. No obvious indications of hazardous materials storage or USTs (such as vent pipes or fill ports) were observed from the public right-of-ways during the walk-by reconnaissance of the adjacent sites.

## Interviews

Hart Crowser interviewed Mr. Russ Funk, Property Facilities Manager and Mr. Mark Petrie, owner representative for the Property. Both Mr. Petrie and Mr. Funk have been familiar with the Property and surrounding sites since the 1980s. Mr. Funk was aware of the fire that destroyed the east half of the adjacent building to the north in approximately 2005. Mr. Funk was aware of the former USTs that existed in the alley to the north of the Property, though did not have any of the decommissioning details. The building is currently heated by wall-mounted gas heaters. The building was previously heated by an oil-fueled boiler that has been out of use for years.

Other information on the history of the Property is incorporated into the historical characterization section of this report.

Mr. Petrie was unaware of any environmental liens or AULs that were filed or recorded against the Property. Both interviewees were aware of the American Linen site to the northeast and that past activities might pose an environmental concern to the Property and surrounding sites.

## Vapor Intrusion

Vapor intrusion is when volatile hazardous substances, such as methane, gasoline, and solvents, released into the subsurface migrate to indoor air. The Property has a past use as a laundry/cleaning facility. In addition, there were four solvent tanks located adjacent to the north of the Property. The

Property is also adjacent to multiple confirmed contaminated sites. There have been volatile hazardous substances released to the groundwater at nearby downgradient sites. Information from the Ecology file review is incorporated in the Regulatory Database and File Review section of this report. The most recent groundwater and soil analytical results from the American Linen site were above MTCA Method A Cleanup Levels. The most recent groundwater data is from 2018 (American Linen Supply Co-Dexter Avenue, to the northeast) and 2016 (700 Dexter HVOC Plume, to the northeast). Based on this information, there is a potential for vapor intrusion for the Property.

## Data Gap Analysis

The ASTM standard and 40 CFR 312 require reasonably ascertainable information to be collected. Because of unforeseen circumstances, some data gaps may remain at the end of the research period. During the site visit, the roof of the building or crawl space beneath the building was not visited.

## Environmental Professionalism Statement

Julie Wukelic, an engineer with over 30 years of experience in the environmental due-diligence field, provided senior oversight for this project as well as contribution to the historical and regulatory research, site reconnaissance, and report preparation. Matthew Fong, an environmental scientist with 4 years of environmental experience, carried out research and prepared this report.

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professionals in §312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess the nature, history, and setting of the Property. We have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR 312.

## Limitations

Work for this project was performed, and this letter report prepared, in accordance with professional practices generally accepted for work of a nature similar to ours, performed under the conditions of the work we completed, and completed in the same or similar localities and at the time our work was performed. It is intended for the exclusive use of Alexandria Real Estate Equities, Inc. for specific application to the Property. This report is not meant to be a legal opinion. No other warranty, express or implied, is made.

Hart Crowser relied on information provided by the individuals indicated above. Hart Crowser can only relay this information and cannot be responsible for its accuracy or completeness. Our work did not include sampling or testing of drinking water for lead content; sampling for indoor air quality; assessment of sewer systems, mold, and other biohazards; sampling for radon vapor; assessment of wetlands; or other items not the standard of practice for our time, unless otherwise noted herein.

Alexandria Real Estate Equities, Inc.

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

# EXECUTIVE SUMMARY

## TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

## DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

## STANDARD ENVIRONMENTAL RECORDS

### ***Federal NPL site list***

NPL..... National Priority List  
Proposed NPL..... Proposed National Priority List Sites  
NPL LIENS..... Federal Superfund Liens

### ***Federal Delisted NPL site list***

Delisted NPL..... National Priority List Deletions

### ***Federal CERCLIS list***

FEDERAL FACILITY..... Federal Facility Site Information listing  
SEMS..... Superfund Enterprise Management System

### ***Federal RCRA CORRACTS facilities list***

CORRACTS..... Corrective Action Report

### ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF..... RCRA - Treatment, Storage and Disposal

### ***Federal institutional controls / engineering controls registries***

LUCIS..... Land Use Control Information System  
US ENG CONTROLS..... Engineering Controls Sites List  
US INST CONTROL..... Sites with Institutional Controls

### ***State and tribal leaking storage tank lists***

INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land

### ***State and tribal registered storage tank lists***

FEMA UST..... Underground Storage Tank Listing  
WA AST..... Aboveground Storage Tank Locations

## EXECUTIVE SUMMARY

INDIAN UST..... Underground Storage Tanks on Indian Land

### **State and tribal voluntary cleanup sites**

INDIAN VCP..... Voluntary Cleanup Priority Listing

### **State and tribal Brownfields sites**

WA BROWNFIELDS..... Brownfields Sites Listing

### **ADDITIONAL ENVIRONMENTAL RECORDS**

#### **Local Lists of Landfill / Solid Waste Disposal Sites**

WA SWTIRE..... Solid Waste Tire Facilities  
INDIAN ODI..... Report on the Status of Open Dumps on Indian Lands  
ODI..... Open Dump Inventory  
DEBRIS REGION 9..... Torres Martinez Reservation Illegal Dump Site Locations  
IHS OPEN DUMPS..... Open Dumps on Indian Land

#### **Local Lists of Hazardous waste / Contaminated Sites**

US HIST CDL..... Delisted National Clandestine Laboratory Register  
WA CDL..... Clandestine Drug Lab Contaminated Site List  
WA HIST CDL..... List of Sites Contaminated by Clandestine Drug Labs  
US CDL..... National Clandestine Laboratory Register

#### **Local Land Records**

LIENS 2..... CERCLA Lien Information

#### **Records of Emergency Release Reports**

HMIRS..... Hazardous Materials Information Reporting System  
WA SPILLS 90..... SPILLS 90 data from FirstSearch

#### **Other Ascertainable Records**

DOD..... Department of Defense Sites  
SCRD DRYCLEANERS..... State Coalition for Remediation of Drycleaners Listing  
US FIN ASSUR..... Financial Assurance Information  
EPA WATCH LIST..... EPA WATCH LIST  
2020 COR ACTION..... 2020 Corrective Action Program List  
TRIS..... Toxic Chemical Release Inventory System  
SSTS..... Section 7 Tracking Systems  
ROD..... Records Of Decision  
RMP..... Risk Management Plans  
RAATS..... RCRA Administrative Action Tracking System  
PRP..... Potentially Responsible Parties  
MLTS..... Material Licensing Tracking System  
COAL ASH DOE..... Steam-Electric Plant Operation Data  
COAL ASH EPA..... Coal Combustion Residues Surface Impoundments List  
PCB TRANSFORMER..... PCB Transformer Registration Database  
RADINFO..... Radiation Information Database

## EXECUTIVE SUMMARY

DOT OPS.....	Incident and Accident Data
CONSENT.....	Superfund (CERCLA) Consent Decrees
INDIAN RESERV.....	Indian Reservations
FUSRAP.....	Formerly Utilized Sites Remedial Action Program
UMTRA.....	Uranium Mill Tailings Sites
LEAD SMELTERS.....	Lead Smelter Sites
US MINES.....	Mines Master Index File
ABANDONED MINES.....	Abandoned Mines
UXO.....	Unexploded Ordnance Sites
DOCKET HWC.....	Hazardous Waste Compliance Docket Listing
FUELS PROGRAM.....	EPA Fuels Program Registered Listing
WA AIRS.....	Washington Emissions Data System
WA COAL ASH.....	Coal Ash Disposal Site Listing

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### ***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 02/06/2019 has revealed that there are 6 SEMS-ARCHIVE sites within approximately 0.625 miles of the target property.

### ***Federal RCRA generators list***

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/01/2018 has revealed that there are 7 RCRA-LQG sites within approximately 0.375 miles of the target property.

## EXECUTIVE SUMMARY

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/01/2018 has revealed that there are 7 RCRA-SQG sites within approximately 0.375 miles of the target property.

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 03/01/2018 has revealed that there are 7 RCRA-CESQG sites within approximately 0.375 miles of the target property.

## EXECUTIVE SUMMARY

Facility Type: Hazardous Sites List  
 FSID Number: 77732426  
 Facility Status: Cleanup Started

### **State- and tribal - equivalent CERCLIS**

WA CSCSL: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Ecology's Confirmed & Suspected Contaminated Sites List.

A review of the WA CSCSL list, as provided by EDR, and dated 01/15/2019 has revealed that there are 154 WA CSCSL sites within approximately 1.125 miles of the target property.

### **State and tribal landfill and/or solid waste disposal site lists**

WA SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Ecology's Solid Waste Facilities Handbook.

A review of the WA SWF/LF list, as provided by EDR, has revealed that there is 1 WA SWF/LF site within approximately 0.625 miles of the target property.

### **State and tribal registered storage tank lists**

WA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Ecology's Statewide UST Site/Tank Report.

A review of the WA UST list, as provided by EDR, and dated 02/09/2019 has revealed that there are 56 WA UST sites within approximately 0.375 miles of the target property.

WA PTAP: A list of sites accepted into the Petroleum Technical Assistance Program. The Petroleum Technical Assistance Program (PTAP) expands the state’s ability to respond to the high customer demand to clean up petroleum contaminated sites. Under the PTAP, the Pollution Liability Insurance Agency (PLIA) may provide informal site-specific technical consultations and issue written opinion letters to persons conducting independent remedial actions at qualifying petroleum cleanup sites. PLIA may provide these services under the authority of RCW 70.149.040(9) and the Model Toxics Control Act (MTCA), Chapter 70.149 RCW and Chapter 173-340 WAC.

A review of the WA PTAP list, as provided by EDR, and dated 11/12/2018 has revealed that there are 4 WA PTAP sites within approximately 0.625 miles of the target property.

WA CSCSL NFA: The data set contains information about sites previously on the Confirmed and Suspected Contaminated Sites list that have received a No Further Action (NFA) determination. Because it is necessary to maintain historical records of sites that have been investigated and cleaned up, sites are not deleted from the database when cleanup activities are completed. Instead a No Further Action code is entered based upon the type of NFA determination the site received.

A review of the WA CSCSL NFA list, as provided by EDR, and dated 01/15/2019 has revealed that there are 79 WA CSCSL NFA sites within approximately 0.625 miles of the target property.

### Records of Emergency Release Reports

WA SPILLS: Depending on the state, these may be active or inactive facilities or open dumps that failed to meet RCRA Subtitle D Section 4004 criteria for solid waste landfills or disposal sites.

A review of the WA SPILLS list, as provided by EDR, and dated 12/17/2018 has revealed that there are 13 WA SPILLS sites within approximately 0.125 miles of the target property.

### Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/01/2018 has revealed that there are 94 RCRA NonGen / NLR sites within approximately 0.375 miles of the target property.

## EXECUTIVE SUMMARY

TSCA: The Toxic Substances Control Act identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site. The United States Environmental Protection Agency has no current plan to update and/or re-issue this database.

A review of the TSCA list, as provided by EDR, and dated 12/31/2016 has revealed that there is 1 TSCA site within approximately 0.125 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
WASHINGTON NATURAL G Chemical Number: 68410639	815 MERCER ST	ESE 0 - 1/8 (0.006 mi.)	B31	149

ICIS: The Integrated Compliance Information System (ICIS) supports the information needs of the national enforcement and compliance program as well as the unique needs of the National Pollutant Discharge Elimination System (NPDES) program.

A review of the ICIS list, as provided by EDR, and dated 11/18/2016 has revealed that there is 1 ICIS site within approximately 0.125 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

FTTS: FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act) over the previous five years. To maintain currency, EDR contacts the Agency on a quarterly basis.

A review of the FTTS list, as provided by EDR, has revealed that there is 1 FTTS site within approximately 0.125 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<b>WESCOR GRAPHICS CORP</b> Database: FTTS INSP, Date of Government Version: 04/09/2009 Docket Number:: 1094-01-10-325 Close Date:: / /	<b>500 DEXTER AVE N</b>	<b>S 0 - 1/8 (0.094 mi.)</b>	<b>F156</b>	<b>522</b>

HIST FTTS: A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

A review of the HIST FTTS list, as provided by EDR, has revealed that there is 1 HIST FTTS site within approximately 0.125 miles of the target property.

## EXECUTIVE SUMMARY

Close Date:: / /  
 Docket Number:: 1094-01-10-325

**FINDS:** The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 02/15/2019 has revealed that there are 46 FINDS sites within approximately 0.125 miles of the target property.

## EXECUTIVE SUMMARY

WA Financial Assurance: A listing of financial assurance information for underground storage tank facilities. Financial assurance is intended to ensure that resources are available to pay for the cost of closure, post-closure care, and corrective measures if the owner or operator of a regulated facility is unable or unwilling to pay.

A review of the WA Financial Assurance list, as provided by EDR, has revealed that there is 1 WA Financial Assurance site within approximately 0.125 miles of the target property.

## EXECUTIVE SUMMARY

NY MANIFEST: Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

A review of the NY MANIFEST list, as provided by EDR, and dated 01/01/2019 has revealed that there are 4 NY MANIFEST sites within approximately 0.375 miles of the target property.

### EDR HIGH RISK HISTORICAL RECORDS

#### **EDR Exclusive Records**

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1.125 miles of the target property.

## EXECUTIVE SUMMARY

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 71 EDR Hist Auto sites within approximately 0.25 miles of the target property.

### EDR RECOVERED GOVERNMENT ARCHIVES

#### ***Exclusive Recovered Govt. Archives***

WA RGA HWS: The EDR Recovered Government Archive State Hazardous Waste database provides a list of SHWS incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Ecology in Washington.

A review of the WA RGA HWS list, as provided by EDR, has revealed that there are 8 WA RGA HWS sites within approximately 0.125 miles of the target property.

Historical Generators:

Date form received by agency: 02/13/2004  
Site name: UTILITIES INC  
Classification: Not a generator, verified

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D002  
. Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

. Waste code: D035  
. Waste name: METHYL ETHYL KETONE

. Waste code: F003  
. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Handler Activities Summary:

U.S. importer of hazardous waste: No  
Mixed waste (haz. and radioactive): No  
Recycler of hazardous waste: No  
Transporter of hazardous waste: No  
Treater, storer or disposer of HW: No  
Underground injection activity: No  
On-site burner exemption: No  
Furnace exemption: No  
Used oil fuel burner: No  
Used oil processor: No  
User oil refiner: No  
Used oil fuel marketer to burner: No  
Used oil Specification marketer: No  
Used oil transfer facility: No  
Used oil transporter: No

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D002  
. Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

. Waste code: D003  
. Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS

**FINDS:**

Registry ID: 110009511625

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110009512385

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D002  
. Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

. Waste code: D003  
. Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE OF SUCH WASTE WOULD BY WASTE GUNPOWDER.

. Waste code: D011  
. Waste name: SILVER

. Waste code: D022  
. Waste name: CHLOROFORM

. Waste code: F003  
. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Classification: Not a generator, verified

Date form received by agency: 02/28/2014  
Site name: AIBS BUILDING LLC  
Classification: Large Quantity Generator

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110005340639

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Handler Activities Summary:

U.S. importer of hazardous waste: No  
Mixed waste (haz. and radioactive): No  
Recycler of hazardous waste: No  
Transporter of hazardous waste: No  
Treater, storer or disposer of HW: No  
Underground injection activity: No  
On-site burner exemption: No  
Furnace exemption: No  
Used oil fuel burner: No  
Used oil processor: No  
User oil refiner: No  
Used oil fuel marketer to burner: No  
Used oil Specification marketer: No  
Used oil transfer facility: No  
Used oil transporter: No

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D035  
. Waste name: METHYL ETHYL KETONE

. Waste code: F003  
. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL

**FINDS:**

Registry ID: 110005388071

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

Tank Name: 1  
Tag Number: A4797, A8447  
Tank Status: Removed  
Tank Status Date: 8/6/1996  
Tank Install Date: 00/01/1980  
Tank Closure Date: 09/16/2008  
Capacity Range: 10,000 to 19,999 Gallons  
Tank Permit Expiration Date: 08/31/2009  
Tank Upgrade Date: 12/01/1994  
Tank Spill Prevention: Spill Bucket/Spill Box  
Tank Overfill Prevention: Automatic Shutoff (fill pipe)  
Tank Material: Fiberglass Reinforced Plastic  
Tank Construction: Single Wall Tank  
Tank Tightness Test: Not reported  
Tank Corrosion Protection: Corrosion Resistant  
Tank Manifold: Not reported  
Tank Release Detection: Automatic Tank Gauging  
Tank SFC Type: Not reported  
Pipe Material: Fiberglass  
Pipe Construction: Single Wall Pipe  
Pipe Primary Release Detection: Automatic Line Leak Detector (ALLD)  
Pipe Second Release Detection: Not reported  
Pipe Corrosion Protection: Corrosion Resistant  
Pipe Pumping System: Pressurized System  
Responsible Unit: NORTHWEST  
Dispencer/Pump SFC Type: Not reported

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Quality Programs.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

- . Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
  
- . Waste code: D002
- . Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
  
- . Waste code: D003
- . Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE OF SUCH WASTE WOULD BY WASTE GUNPOWDER.
  
- . Waste code: D009
- . Waste name: MERCURY
  
- . Waste code: F003
- . Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
  
- . Waste code: U002

**FINDS:**

Registry ID: 110005317941

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Registry ID: 110070135500

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

**HAZARDOUS WASTE BIENNIAL REPORTER**

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to

**1014850548**

replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Historical Generators:

Date form received by agency: 02/26/2010

Site name: KORRY ELECTRONICS SEATTLE

Classification: Large Quantity Generator

. Waste code: D001

. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D002

. Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

. Waste code: D005

. Waste name: BARIUM

. Waste code: D006

. Waste name: CADMIUM

. Waste code: D007

. Waste name: CHROMIUM

. Waste code: D008

. Waste name: LEAD

. Waste code: D011

. Waste name: SILVER

. Waste code: D035

. Waste name: METHYL ETHYL KETONE

. Waste code: F002

. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2-TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE LISTED IN F001, F004, OR F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F003

. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**HAZARDOUS WASTE BIENNIAL REPORTER**

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Handler Activities Summary:

U.S. importer of hazardous waste: No  
Mixed waste (haz. and radioactive): No  
Recycler of hazardous waste: No  
Transporter of hazardous waste: No  
Treater, storer or disposer of HW: No  
Underground injection activity: No  
On-site burner exemption: No  
Furnace exemption: No  
Used oil fuel burner: No  
Used oil processor: No  
User oil refiner: No  
Used oil fuel marketer to burner: No  
Used oil Specification marketer: No  
Used oil transfer facility: No  
Used oil transporter: No

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D002  
. Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

. Waste code: D008  
. Waste name: LEAD

. Waste code: WT01

**FINDS:**

Registry ID: 110005314418

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Handler Activities Summary:

U.S. importer of hazardous waste: No  
Mixed waste (haz. and radioactive): No  
Recycler of hazardous waste: No  
Transporter of hazardous waste: No  
Treater, storer or disposer of HW: No  
Underground injection activity: No  
On-site burner exemption: No  
Furnace exemption: No  
Used oil fuel burner: No  
Used oil processor: No  
User oil refiner: No  
Used oil fuel marketer to burner: No  
Used oil Specification marketer: No  
Used oil transfer facility: No  
Used oil transporter: No

Classification: Not a generator, verified

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: F003  
. Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

. Waste code: D002  
. Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

. Waste code: D003  
. Waste name: A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE OF SUCH WASTE WOULD BY WASTE GUNPOWDER.

**FINDS:**

Registry ID: 110005394867

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Handler Activities Summary:

U.S. importer of hazardous waste: No  
Mixed waste (haz. and radioactive): No  
Recycler of hazardous waste: No  
Transporter of hazardous waste: No  
Treater, storer or disposer of HW: No  
Underground injection activity: No  
On-site burner exemption: No  
Furnace exemption: No  
Used oil fuel burner: No  
Used oil processor: No  
User oil refiner: No  
Used oil fuel marketer to burner: No  
Used oil Specification marketer: No  
Used oil transfer facility: No  
Used oil transporter: No

. Waste code: D002  
. Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

. Waste code: WSC2  
. Waste name: WSC2

. Waste code: WT02  
. Waste name: WT02

Violation Status: No violations found

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

. Waste code: D001  
. Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSLEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

FINDS:

Registry ID: 110005314891

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110005308078

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110008224518

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

**FINDS:**

Registry ID: 110005405365

**Environmental Interest/Information System**

Washington Facility / Site Identification System (WA-FSIS) provides a means to query and display data maintained by the Washington Department of Ecology. This system contains key information for each facility/site that is currently, or has been, of interest to the Air Quality, Dam Safety, Hazardous Waste, Toxics Cleanup, and Water Quality Programs.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
