This report summarizes activities completed from November 1 through 30, 2019.

ACTIONS TAKEN TO COMPLY WITH THE AGREED ORDER

- On November 1, Leidos submitted a draft of the second addendum (Addendum 2) to the Remedial Investigation Work Plan (RIWP) for the Site to Ecology. This document provided a summary of the remedial investigation (RI) data collected to date, and proposed additional investigation to address data gaps identified by the July 2019 RI field activities.
- On November 12, CEMC transmitted another round of site access request letters to owners of the properties at 1932 and 1936 5th Street in Bremerton by overnight courier. This represents CEMC’s second attempt to contact the owners of these properties. CEMC has since received responses from the owners of both properties, and is currently working to finalize site access agreements for these properties.
- On November 14, Ecology approved the Addendum 2 with no requested revisions. Leidos submitted a final copy of Addendum 2 on November 20.
