Bellevue, WA 98008

**Subject: Progress Memo, December 1 to 31, 2019**  
**Boeing Field Chevron**  
**Ecology Facility-Site ID: 2551**  
**Agreed Order: DE-10947**  
**10805 East Marginal Way South**  
**Tukwila, WA**

Dear Mr. Myers:

This progress memo has been prepared per the reporting requirements of the Agreed Order for the Boeing Field Chevron Site (No. DE 10947). Presented below is information for activities that occurred during the month of December 2019, organized by the eight topics identified for Progress Memos.

**1 – Actions Taken at the Property to Comply with Agreed Order No. DE 10947**

G-Logics continued to incorporate Ecology's comments into the preparation of the RI/FS report, which will be submitted to Ecology as a draft for review and comment. G-Logics and Chevron are working with Ecology to establish revised deadlines for the preparation of the RI/FS report.

**2 – Summary of Sampling and Testing**

Sampling or testing efforts did not occur during the month of December.

F: 425-313-3074

### **3 – Summary of Deviations from the Approved Workplan**

There are currently no deviations from the approved workplans for this reporting period.

### **4 – Summary of Contacts with Representatives from Local Community, Public Interest Groups, Press, and Federal, State, and Tribal Governments**

Ecology communicated with G-Logics on December 31, 2019, via email regarding the schedule of deliverables for the draft RI/FS report.

### **5 – Summary of Problems or Anticipated Problems in Meeting the Schedule or Objectives**

Based on the Ecology communication described in Section 4 and subsequent emails with Ecology, G-Logics understands Ecology anticipates the draft RI/FS report to be submitted by February 10, 2020. Because of recent unexpected project-personnel changes, G-Logics anticipates that a schedule extension will be necessary to complete the draft RI/FS.

### **6 – Summary of Solutions Developed and Implemented or Planned to Address Problems**

G-Logics is currently scheduled to meet with Ecology on February 5, 2020 to review and discuss the remedial alternatives that will be evaluated in the FS. The intent of this meeting is to streamline the FS preparation process, and avoid multiple drafts of the document, by facilitating stakeholder agreement on the evaluated alternatives prior to submittal of the draft RI/FS document. Following this meeting, G-Logics will confirm the schedule needs for completion of the draft RI/FS and will submit a request to Ecology to extend the document due date.

### **7 – Changes in Key Personnel**

There have been no changes in key personnel during this reporting period.

### **8 – Description of Work Planned for Next Reporting Period**

G-Logics continues to prepare the draft RI/FS report.

**Closing**

Please contact us at your convenience with any questions regarding this progress memo.
