**Re: Satisfaction of Agreed Order No. 16306 and No Further Action at the following Contaminated Site:**

- **Site Name:** Bothell Riverside TPH
- **Site Address:** Woodinville Drive (SR 522) and NE 180<sup>th</sup> Street
- **Cleanup Site ID:** 6240
- **Facility/Site ID:** 53578168

Dear Jennifer Philips:

Thank you for working with the Washington State Department of Ecology (Ecology) on Bothell Riverside TPH (Site). This letter provides written notification that the remedial actions required by Agreed Order No. **16306** have been satisfactorily completed and that no further remedial action is necessary to clean up contamination at the Site under the Model Toxics Control Act (MTCA), Chapter 70.105D RCW. This letter also describes the removal of the Site from Ecology's Hazardous Sites List. The Order became effective on December 5, 2019.

Ecology has determined the requirements of the Order have been satisfied. Ecology made this determination pursuant to Section IX "Satisfaction of Order".

The remedial actions required by the Order are specified in Section VII (Work to Be Performed) and detailed in the Cleanup Action Plan (Exhibit B). The City of Bothell was required to remove petroleum contaminated soil and groundwater. After inspecting the Site and reviewing the supporting documentation, Ecology has determined that the remedial actions required by the Order have been satisfactorily completed.

Ecology has determined that no further remedial action is necessary to clean up contamination at the Site under MTCA. Ecology has also determined that no post-cleanup controls or monitoring are necessary under MTCA.

Jennifer Phillips

Page 2

Based on the no further action determination, Ecology proposed removing the Site from the Hazardous Sites List (HSL). Ecology published notice of the proposal in the Site Register on November 21, 2019 and provided a 30-day public comment period, beginning October 28, 2019. No comment was received. Ecology removed the Site from the HSL on December 31, 2019. The removal will be reflected in the next publication of the HSL in the Site Register.

Thank you for cleaning up the Site. Should you have any questions, please do not hesitate to contact Ecology's cleanup project manager for this Site, Sunny Becker by email at [sunny.becker@ecy.wa.gov](mailto:sunny.becker@ecy.wa.gov).

Sincerely,

Robert W. Warren  
Section Manager  
Toxics Cleanup Program, NWRO
