P.O. Box 850
Woodinville, Washington 98072

Dear Mr. Angermeier:

The Snohomish Health District has completed the site hazard assessment (SHA) of the Maltby Warehouse and Field site, as required under the Model Toxics Control Act. A determination of no further action (NFA) at this site has been made by Ecology based on this SHA.

For your information, Ecology will be publishing the results of this, and other recently completed SHAs in the March 8, 1994 Special Issue of the Site Register.

Ecology reserves the right to initiate further investigation at this site where new information is received indicating potential/actual threat to human health and/or the environment through the release of hazardous substance(s).

Please contact me at (206) 339-5250 if you have any questions/comments regarding this SHA/determination of NFA.

Sincerely,

Gary G. Hanada
Environmental Health Specialist
