Re: Notification of Pending Inactive Determination Status for the following Hazardous Waste Site enrolled in the Voluntary Cleanup Program:

- Site Name: Oak Harbor STP
- Site Address: 1501 SE City Beach St Plant
- Facility/Site No.: 63184452
- VCP No.: NW1823

Dear Mr. Kelly:

Our records indicate that you applied for the Voluntary Cleanup Program (VCP) on September 11th 2007. The Department of Ecology (Ecology) appreciates your initiative in pursuing this administrative option for cleaning up hazardous waste sites under the Model Toxics Control Act (MTCA), Chapter 70.105D RCW.

The following details site activity since the date of application:

- No activity at this Site since October 6th 2008. On October 6th 2008 Ecology responded to two reports; "Proposed Well Decommissioning, Contaminated Soil Removal & Groundwater Investigation Plan" and "Draft Sediment Sampling and Analysis Plan City of Oak Harbor Outfall 001".

The VCP is staffed to provide assistance to applicants who are actively pursuing site cleanup. Our records indicate that we have not received information regarding your progress on this site's clean up in the past twelve months. If you are still actively cleaning this site you have 30 days to provide a work summary, report, or other documentation that demonstrates you have taken cleanup actions during this past 12 months.

If no cleanup activities have occurred during the past year and we do not hear from you by February 4th 2010, this site will be removed from the VCP due to inactivity. The status of this site will be updated in Ecology's database of contaminated sites.

Mr. Rob Kelly

Due to significant interest in the Voluntary Cleanup Program we are not able to keep inactive sites in the program. If this site is deemed inactive, we encourage you to reapply to the VCP when you are ready to actively continue site cleanup. Your commitment to site cleanup is greatly appreciated. If you have any questions you may reach me at 425-649-7038.

Sincerely,

Russ Olsen
VCP Unit Supervisor
Toxic Cleanup Program
