RE: Groundwater Sampling – Frank Wear Cleaners, FSID: 444

Dear Tom Zeilman:

The Washington Department of Ecology (Ecology) is continuing the Yakima Railroad Area groundwater-monitoring project. As part of this investigation, Ecology's Environmental Assessment Program will be conducting groundwater sampling for the Yakima Railroad Area between November 16, 2020 and November 20, 2020.

Samples will be analyzed for tetrachloroethylene, breakdown products, and general water quality parameters. Results will be available to you once Ecology receives them, upon your request. Please consider this letter to be a formal property access notice for an Ecology representative.

If you have any questions, please contact me at (509) 454-7833.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kyle Parker".

Kyle Parker
