

STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY

15 West Yakima Avenue, Suite 200 • Yakima, Washington 98902-3452 • (509) 575-2490

September 10, 2007

Chet Harum, Principal
West Side High School
1521 9th Street
Wenatchee, Washington 98831

Dear Mr. Harum:

Re: No Further Action Determination for:

- Name: West Side High School
- Address: 1521 9th Street, Wenatchee
- Facility/Site No.: 4267507

Enclosed is a copy of the Interim Action Report prepared by our staff which provides details of the cleanup conducted last summer. The Department of Ecology (Ecology) appreciated the opportunity to partner with you in keeping children safe. The lead and arsenic contaminated soil from prior pesticide use has been removed or reduced, and as such, no further action is required (under the Model Toxics Control Act, chapter 70.105D RCW) to protect human health and the environment.

Ecology will update its database to reflect this "No Further Action" determination. The school will not appear in future publications of the Confirmed & Suspected Contaminated Sites Report. Ecology will also initiate the process to remove the school from the Hazardous Sites List. This process does include a thirty (30) day public comment period.

Once again, we appreciate your commitment to human health and the environment. Should you have any questions, please feel free to contact Jeff Newschwander at (509) 388-5223 or (509) 454-7842.

Sincerely,

Valerie Bound
