Dear Mr. Jeff Dengler

Re: Not a MTCA Site at Fuji Color Processing Leasehold Portion
7700 Andover Park E. Tukwila WA.

Thank you for submitting documentation of soil remediation completed at the above site. The Voluntary Cleanup Program Application and supporting documentation, dated February 3, 2005, Environmental Partners Inc. has been reviewed by the Department of Ecology (Ecology), and Ecology has determined that the release of silver to the soil is minor in nature and extent and has been expeditiously cleaned up. Therefore, the incident at Fuji Color Processing Leasehold Portion will not be listed on Ecology's Confirmed and Suspected Contaminated Sites list, and 7700 Andover Park E. Tukwila, WA is not considered a contaminated site at this time. If you have further questions, please contact me at 425.649.4446 or email damy461@ecy.wa.gov

Sincerely,
