**RE: Pasco Landfill NPL Site – IWAG Request for Fourth Extension of Due Date for Draft Operations and Maintenance Plan for the Municipal Solid Waste Disposal Areas**

Dear Jessi Massingale,

Ecology received your schedule extension request letter dated January 21, 2021 prepared in accordance with Section VIII.H of Enforcement Order No. DE 16899. Floyd|Snider on behalf of the Industrial Waste Area Generators Group III (IWAG), is requesting a two-week schedule extension for submittal of the Draft Municipal Solid Waste Disposal Areas Operations and Maintenance Plan (MSW O&M Plan). This request will shift the deliverable due date for the Draft MSW O&M Plan from March 1 to March 15, 2021.

Ecology understands a settlement agreement has been successfully negotiated between the Landfill Group and IWAG. All parties have signed the agreement, and a motion to enter the Consent Decree was filed with the Court on January 8, 2021. Under the terms of the settlement agreement, the IWAG will take over responsibility of all remedial actions at the Pasco Landfill NPL Site once the Consent Decree memorializing the settlement is entered into Court.

In consideration of the reasons provided in your letter, including the proposed discussions with Ecology in February 2021 (prior to the approved O&M Plan delivery date) to go over proposed plan revisions, Ecology grants this fourth submittal date extension request for delivery of the above-listed documents.

Ecology will anticipate receipt of the Draft MSW O&M Plan on or before the approved March 15, 2021 delivery date.

Jessi Massingale
