Re: Early Notice of Listing Contaminated Site

- **Site Name:** Allied Lock and Safe
- **Site Address:** 425 W. 2nd Avenue, Spokane
- **Facility/Site ID:** 72355
- **Cleanup Site ID:** 15350

Dear Craig Hunt:

The Department of Ecology (Ecology) has confirmed that a release of hazardous substances has occurred at the Allied Lock and Safe facility (Site). This Site requires cleanup under the Model Toxics Control Act (MTCA), [chapter 70A.305 RCW](#).¹

Based on this confirmation, Ecology has added the Site to the [Confirmed and Suspected Contaminated Sites List](#).² This list includes all known or suspected contaminated sites that Ecology has determined require further remedial action under MTCA.

Ecology based this determination on your enrollment in the [Petroleum Technical Assistance Program](#) (PTAP)³ of the [Pollution Liability Insurance Agency](#) (PLIA).⁴ We applaud your initiative and appreciate your work to independently clean up the Site.

Your cooperation to clean up the Site is neither an admission of guilt nor liability. This "early notice" is required under Washington Administrative Code (WAC) [173-340-310](#)(6)(b).⁵
