**PROGRESS REPORT NO. 28 – FEBRUARY 2020  
AMERICAN LINEN SUPPLY CO-DEXTER AVE SITE  
AGREED ORDER NO. DE 14302**

Dear Ms. Cardona:

On behalf of BMR-Dexter LLC (“BMRD”), PES Environmental, Inc. is submitting this monthly progress report in accordance with the requirements of Agreed Order No. DE 14302 (the “AO”) between the State of Washington Department of Ecology (“Ecology”) and BMRD. Specifically, this progress report was prepared to fulfill the requirements of Sections VII.F and VII.G of the AO. This progress report provides information pertaining to work conducted during February 2020.

This progress report discusses: (1) activities that took place during the reporting period, (2) deviations from approved work plans or other required tasks not already documented in project plans or reports, (3) deviations or anticipated problems in meeting the schedule or objectives set forth in the AO or approved work plans, (4) validated laboratory data received and data entered into Ecology’s Environmental Information Management (“EIM”) database during the reporting period, (5) work planned and anticipated deliverables for the next reporting period (i.e., March 2020), and (6) summaries of contacts with representatives of the local community, public interest groups, press, and federal, state or tribal governments.

For the purpose of this progress report, the word “Site” refers to an area where contamination released at the property located at 700 Dexter Avenue North has come to be located, consistent with the definition of “site” or “facility” in the Washington Model Toxics Control Act (Chapter 173-340 of the Washington Administrative Code). The word “Property” refers to the area within the 700 Dexter Avenue North property boundary.

**ACTIVITIES CONDUCTED DURING THE REPORTING PERIOD**

During the reporting period, BMRD conducted the following work:

- Continued construction activities associated with implementing the Final Interim Action Work Plan, and with planned redevelopment of the Property. The following construction-related activities occurred during the reporting period:

- Continued operation of the dewatering system. Water from the dewatering system and water that accumulated in the excavation were treated and discharged consistent with the Operations and Maintenance Manual and the discharge permit; and
- Continued installation of the waterproofing and vapor barrier system;
- Continued implementation of the Remedial Investigation (“RI”), including the following activities:
  - Continued permitting activities for installation of additional RI monitoring wells and vapor intrusion monitoring probes;
  - Continued data reduction, tabulation, and evaluation; and
  - Continued preparation of an RI work plan addendum describing a proposed vapor intrusion investigation and installation of additional RI monitoring wells;
- Submission of Progress Report No. 27 to Ecology on February 19, 2020;
- Participation in a meeting with Ecology on February 20, 2020, to discuss: (1) the status of the interim action implementation and construction activities, and (2) ongoing RI activities and potential supplemental investigation areas.

#### **DEVIATIONS FROM REQUIRED TASKS NOT ALREADY REPORTED**

No unreported deviations from required tasks occurred during the reporting period.

#### **DEVIATIONS FROM THE SCHEDULE**

No deviations were encountered during the reporting period, and there are no anticipated problems in meeting the schedule or objectives set forth in the AO.

#### **VALIDATED DATA RECEIVED, AND DATA ENTERED INTO EIM**

Activities conducted during the reporting period related to data validation and management included:

- Continued to receive and validate data from the January 2020 quarterly groundwater monitoring event. Project database upload and EIM submittals are ongoing.

#### **WORK PLANNED AND ANTICIPATED DELIVERABLES DURING UPCOMING REPORTING PERIOD**

Work planned during the March 2020 reporting period includes:

- Continued data reduction, tabulation, and evaluation;
- Complete preparation of a draft RI work plan addendum addressing a vapor intrusion investigation and installation of additional RI monitoring wells;
- Complete permitting for installation of additional RI monitoring well locations and soil vapor probes;

**Ms. Tamara Cardona**

PES Environmental, Inc.

**March 17, 2020**

**Page 3 of 3**

- Pending approval of the RI work plan addendum, begin mobilization for installation of additional RI monitoring wells and soil vapor probes in the area to the north, east, and south of the Property; and
- Continue construction activities, including:
  - Continue pumping from the construction dewatering wells and discharging to stormwater consistent with the discharge permit; and
  - Continue installation of the waterproofing and vapor barrier systems.

There are no other deliverables anticipated to be submitted to Ecology during the March 2020 reporting period.

### **CONTACTS WITH PUBLIC AND GOVERNMENTAL PERSONNEL**

Other than routine communications with Ecology regarding the ongoing work, BMRD did not issue any press releases or fact sheets related to the project and participated in no major meetings with interested public or local governments.

Please call if you have any questions or comments regarding information included in this progress report.

Sincerely,  
**PES ENVIRONMENTAL, INC.**

Daniel A. Balbiani, P.E.  
Principal Engineer
