Snoqualmie, WA 98065

Re: Weyerhaeuser/ Snoqualmie Mill #N-17-5057-000

Dear Mr. Watkins:

I am writing to send you information that the Department of Ecology has gathered about the above facility. We are required under the Model Toxics Control Act (Chapter 70.105D RCW) to maintain a comprehensive program for cleaning up hazardous waste substances. As part of this effort, Ecology publishes a list of sites which are known or suspected to be contaminated.

Based on the conclusions of an initial investigation of the facility, this site has been added to the above list. Enclosed is the Owner/Operator Site Information report which reflects the current status of this site in our database. A legend is also enclosed for category definitions. Inclusion in this database does not mean that Ecology has determined you are a Potentially Liable Person under the Model Toxics Control Act.

We are making every effort to ensure that we have accurate information and are contacting you to provide you with the opportunity to review the enclosed report. At this time, if you have any corrections, please send them and any supporting material to me at the above address.

If you have any questions, you may call me at (206) 867-7209. Thank you for your cooperation.

Sincerely,

A handwritten signature in cursive script that reads "Louise Bardy".

Louise Bardy  
Site Information Coordinator  
Toxics Cleanup Program
