Re: Restrictive Covenant - Sparks & Buttercup Subdivision

Dear Ms. Carter:

Dale T. Watkins, Vice President of U. S. Bankcorp Financial Inc., has requested that I direct to your attention a copy of the Restrictive Covenant recorded in the Spokane County Auditor's Office as referenced above. Enclosed you will find such document.

It is my understanding, that upon your receipt of a recorded copy of the Restrictive covenant that you will issue a No Further Action Letter to U. S. Bankcorp Financial Inc. concerning the site. If at all possible, I would appreciate your forwarding a carbon copy of that letter to my attention. Mr. Watkins is agreeable to the County receiving a copy of that letter.

Thank you very much for your assistance in this matter.

Very truly yours,

JAMES P. EMACIO
Deputy Prosecuting Attorney

Kleinfelder, Inc., August 30, 1995.

These documents are on file at the State of Washington Department of Ecology ("Ecology") Eastern Regional Office. This Restrictive Covenant is required under Ecology's rule WAC 173-340-440 because the cleanup action on the Site resulted in residual concentrations of petroleum hydrocarbons and metals in the soil which exceed Ecology's cleanup levels established under WAC 173-340-740.

The undersigned, U. S. Bancorp Financial Inc., successor by merger to Spectrum Properties, Inc., is the fee owner of the Site in Spokane County, State of Washington. This property owner makes the following declaration as to limitations, restrictions, and uses to which the Site may be put, and specifies that such declarations shall constitute covenants to run with the land, as provided by law, and shall be binding on all parties and all persons claiming under them, including all current and future owners of any portion of or interest in the Site.

Section 1. The Site contains residual concentrations of petroleum hydrocarbons and metals in the soil. The Site has been covered with imported clean soil and a PVC liner, and has been revegetated with grass. Remediation or removal of the contaminated soil must be addressed before the owner or a successor owner alters or modifies the Site to the extent that it affects the contamination, the clean soil cap, or the PVC liner. Any plans for alteration, modification, or removal shall be submitted to Ecology, or a successor agency, for approval.

Section 2. The owner or successor owner of the Site must give written notice to Ecology, or to a successor agency, of the owner's or successor owner's intent to convey any interest in the Site, and shall, prior to conveyance of title, easement, lease, or other interest in the Site, provide the new owner or lessee of any interest in the Site a copy of the August 1994 Independent Remedial Action Report. No conveyance of title, easement, lease, or other interest in the property shall be consummated by the owner without adequate and complete provision for continued compliance with this Restrictive Covenant. Copies of this Restrictive Covenant shall be furnished to any transferee of the Site.

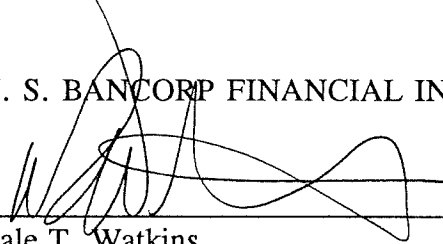

Section 3. The owner or successor owner agrees to maintain the clean soil cap and agrees to submit written notification to Ecology, or a successor agency, on an annual basis, confirming that the clean soil cap has undergone a visual inspection, received any necessary repairs due to erosion, and remains in place. This covenant does not require the owner or successor owner to maintain or inspect the PVC liner.

Section 4. The owner or successor owner must notify and obtain approval from Ecology, or from a successor agency, prior to any use of the Site that is inconsistent with the terms of this Restrictive Covenant. Ecology or its successor agency may approve such a use only after public notice and comment.

Section 5. The owner or a successor owner shall grant Ecology, or a successor agency, and its designated representatives the right to enter the Site at reasonable times for the purpose of carrying out its duties under RCW Chapter 70.105D, including the right to take samples, inspect any remediation actions taken at the Site, and inspect records.

Section 6. The owner of the Site and any successor owners reserve the right under WAC 173-340-440 to record an instrument which provides that this Restrictive Covenant shall no longer limit use of the Site or be of any further force or effect. However, such an instrument may be recorded only with the consent of Ecology, or of a successor agency. Ecology, or a successor agency, may consent to the recording of such an instrument only after public notice and comment, and only if a restrictive covenant is no longer required by law at this Site.
