Ecology has determined that no further action is necessary (at the Initial Investigation stage) due to independent remediation.

Ecology reviewed the following documents:

- GeoEngineers, Cleanup Action Report Perrigo Park Phase 2A Remedial Excavation, November 11, 2015.
- GeoEngineers, Addendum to the November 11, 2015 Cleanup Action Report, April, 1, 2016.

The above documentation provides sufficient evidence that this cleanup was conducted to MTCA Method A cleanup levels for unrestricted land use.
