Parcel ID # 2623049104  
Facility Site ID: 43787415  
Cleanup Site ID: 13066

Ecology has determined that no further action is necessary (at the Initial Investigation stage) due to independent remediation.

Ecology reviewed the following document:

- Soil Remediation Report, 220 Strander Boulevard, Tukwila, Washington. ECI Environmental Services. June 8, 2015.

The above documentation provides sufficient evidence that this cleanup was conducted to MTCA Method A cleanup levels for unrestricted land use.

*NOTE: This determination does not apply to the LUST/VCP site at the same address. These are separate releases.*

Additional information about Ecology's review of this site cleanup may be accessed here:
