Re: NRD Kickoff Meeting

Dear Mr. McKeen:

The Port Angeles Harbor Natural Resource Trustee Council would like to thank you for your efforts in the recent discussions that have culminated in the signing of the Tolling Agreement. We believe we now have an opportunity for resolution of Natural Resource Damage (NRD) liability in an expeditious and cooperative manner.

The Trustees would like to arrange for a NRD kickoff meeting in the coming weeks. We envision this meeting as organizational and a means of introducing principals from the potentially responsible parties (PRPs) and representatives of the Trustee Council. We believe it would be useful to develop an overall framework for discussions so that policy, technical, and legal elements are appropriately coordinated. Our experience indicates that these processes can be effectively integrated while ensuring that the technical work moves forward in a focused and streamlined manner. We certainly want to understand your perspective for these discussions. We would like to offer April 6, 7, 26 or May 5 for this initial meeting between the principals. Though we believe there are advantages to an initial meeting involving the principals only, if you feel it is necessary include attorneys and/or technical consultants, please advise and we will plan accordingly. We are flexible in potential locations, but would like to offer the Lower Elwha Klallam Tribe's Heritage Center in Port Angeles as a potential venue. Please contact Connie Groven at (360)407-6254 or Connie.Groven@ecy.wa.gov by April 1, or sooner, to confirm one of the above meeting dates or to discuss other possible meeting dates.

We look forward to working with you and the other western Port Angeles Harbor PRPs in moving forward in a technically sound, defensible, and expeditious pathway toward settlement of NRD claims. An identical letter of invitation is being sent to the other PRPs who have entered into the Tolling Agreement.

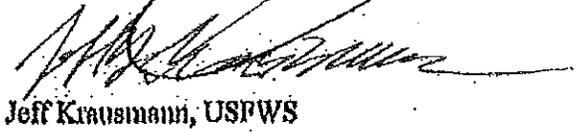

Sincerely,

PORT ANGELES HARBOR TRUSTEE COUNCIL

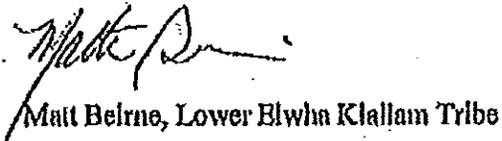

Robert Neely, NOAA

Jeff Krausmann, USFWS
