Ecology has determined that no further action is necessary (at the Initial Investigation stage) due to independent remediation.

Ecology received the following report:

- Independent Remedial Action Report and UST Site Assessment Report, Former City Hall Underground Heating Oil Storage Tank, 19050 Jensen Way, Poulsbo, WA. City of Poulsbo, Poulsbo, WA. December 2, 2016.

The above report provides sufficient documentation that this cleanup was conducted to MTCA Method A cleanup levels for unrestricted land use. Richard Bazzell, Kitsap Public Health District, has recommended no further action at this site, and Ecology concurs. This cleanup meets the eligibility criteria and individual provisions for Model Remedy 1, as defined in Ecology [Publication No. 15-09-043](#).
