2	I. JURISDICTION
3	This Second Amended Agreed Order is issued pursuant to the authority of RCW 70.105D.050 (l).
4	II. DEFINITIONS
5	Unless otherwise specified herein, the definitions set forth in Chapter 70.105D RCW and Chapter
6	173-340 WAC shall control the meanings of the terms used in this Order.
7	Additional definitions are as follows:
8	1. <u>Area 1 Property</u> means the property at the north end of the BCA- Auburn Plant, south of
9	the YMCA/Junior Achievement property, and north of Building 17-06, as shown in the diagram in
10	Attachment 1. This property was purchased from The Boeing Company by the AMB Corporation, and is
11	now owned by Prologis.
12	2. <u>Agreed Order</u> or <u>Order</u> means this Order issued under RCW 70.105D.050(1) and WAC
13	173-340-530. The term includes the text of this Order, all Attachments to this Order, and Ecology-
14	approved submittals required pursuant to this Order. Order Attachments and Ecology-approved submittals
15	are incorporated into this Order by this reference and are enforceable parts of this Order as if fully set
16	forth herein.
17	3. <u>Area of Concern</u> (AOC) means any area of the Site where a release or threatened release of
18	dangerous constituents (including dangerous waste and hazardous substances) has occurred, is occurring,
19	is suspected to have occurred, or threatens to occur.
20	4. <u>Boeing Auburn facility (BA facility)</u> means the Boeing Commercial Airplanes, Fabrication
21	Division- Auburn Plant property at 700 15th Street SW and all contiguous land, and structures, other
22	appurtenances, and improvements on the land that Boeing used for recycling, reusing, reclaiming,
23	transferring, storing, treating, or disposing of dangerous waste since 1966. This includes the property

1

described in Attachment A to the original permit which was jointly issued by Ecology and EPA in
 August, 1987.

3	5. Boeing Commercial Airplanes, Fabrication Division- Auburn Plant (BCA- Auburn Plant)
4	means the property at 700 15th Street SW and all contiguous land, and structures, other appurtenances,
5	and improvements on the land that Boeing used for recycling, reusing, reclaiming, transferring, storing,
6	treating, or disposing of dangerous waste since 1966. However, the BCA-Auburn Plant no longer includes
7	the Safeway, YMCA/Junior Achievement, or Puget Sound Energy (PSE) properties in light of
8	modifications previously made to Part A of Boeing's RCRA Permit No. 87-1. Ecology approved the
9	modifications to Part A of the permit on September 6, 2002 for the Safeway Property, on February 27,
10	2003 for the YMCA Property, and on June 30, 2004 for the PSE Property (See Diagram, Attachment 1,
11	for the locations of the Safeway, YMCA, and PSE properties).
12	6. <u>Cleanup Action Plan</u> (CAP) means the document issued by Ecology under WAC 173-340-
13	360 which selects Site specific corrective measures and specifies cleanup standards.
14	7. <u>Cleanup Standards</u> means the standards promulgated under RCW 70.105D.030 (2)(e) and
15	developed for the Site under WAC 173-340-700(3). These include (1) hazardous substance concentrations
16	(cleanup levels) that protect human health and the environment, (2) the location at the Site where those
17	cleanup levels must be attained (points of compliance), and (3) additional regulatory requirements that
18	apply to a cleanup because of the type of action and/or the location of the Site (applicable state and
19	federal laws).
20	8. <u>Corrective Action</u> means any activities including investigations, studies, characterizations
21	and corrective measures, including actions taken pursuant to Chapter 70.105D RCW and Chapter 173-340
22	WAC, undertaken in whole or in part to fulfill the requirements of WAC 173-303-64610 through 173-
23	303-646920.
24	9. <u>Corrective Measure</u> means any measure or action to control, prevent, or mitigate releases
25	and/or potential releases of dangerous constituents (including dangerous waste and hazardous substances)
26	at or from the Site, which action has been reviewed and approved by Ecology for the Site and set forth in

AGREED ORDER - 3

1	a Site specific Cleanup Action Plan (CAP) prepared in compliance with the requirements of Chapter 173-
2	340 WAC. Corrective measures may include interim actions as defined by Chapter 173-340 WAC.
3	Interim actions will not necessarily be set forth in a Site-specific CAP.
4	10. <u>Dangerous Constituent</u> means any constituent identified in WAC 173-303-9905 or 40 CFR
5	Part 264 Appendix IX, any constituent that caused a waste to be listed or designated as dangerous under
6	the provisions of Chapter 173-303 WAC, and any constituent defined as a hazardous substance by RCW
7	70.105D.020(13).
8	11. Dangerous Waste means any solid waste designated in WAC 173-303-070 through 173-
9	303-100 as dangerous or extremely hazardous or mixed waste. Dangerous wastes are considered
10	hazardous substances under RCW 70.105D.020 (13).
11	12. <u>Dangerous Waste Constituent</u> means any constituent listed in WAC 173-303-9905 and any
12	other constituent that has caused a waste to be a dangerous waste pursuant to Chapter 173-303 WAC.
13	13. <u>Dangerous Waste Management</u> Unit (DWMU) is a contiguous area on or in which
14	dangerous waste is placed or has otherwise come to be located, or the largest area in which there is a
15	significant likelihood of mixing dangerous waste constituents in the same area, as defined in WAC 173-
16	303-040.
17	14. Day shall always mean a calendar day unless otherwise specified. In computing any period
18	of time under this Order, if the last day falls on a Saturday, Sunday, or a state or federal holiday, the
19	period shall run until the end of the next day which is not a Saturday, Sunday, or a state or federal
20	holiday. Any time period scheduled to begin on the occurrence of an act or event shall begin on the day
21	after the act or event.
22	15. <u>Ecology or Ecology- NWRO</u> means the State of Washington Department of Ecology or the
23	State of Washington Department of Ecology Northwest Regional Office.
24	16. Facility or Site means the BCA - Auburn Plant, as defined above. For the purposes of
25	implementing corrective action under WAC 173-303-64620 or 173-303-64630, Facility or Site also

means all contiguous property under the control of Boeing Auburn and Prologis and includes the
 definition of Facility at RCW 70.105D.020(8).

3 Feasibility Study (FS) means the investigation and evaluation of potential corrective 17. 4 measures performed in accordance with the Feasibility Study (FS) requirements of WAC 173-340-350 5 [and the RI/FS Scope of Work attached to this Order], which includes the substantive requirements for a 6 RCRA Corrective Measures Study, and undertaken in whole or in part to fulfill the corrective action 7 requirements of WAC 173-303-64610 through 173-303-646920. 8 18. Hazardous Substances means the definition of hazardous substance at RCW 9 70.105D.020(13). 10 Independent Remedial Actions means remedial actions conducted without department 19. 11 oversight or approval and not under an order, agreed order, or consent decree as defined in WAC 173-12 340-200 and WAC 173-340-515. 13 20. Parties refers to the State of Washington, Department of Ecology, The Boeing Company 14 and Prologis 15 Permit or Permitting Requirement, unless otherwise specified, means the requirements of 21. 16 Chapter 173-303 WAC for applying for, obtaining, maintaining, modifying, and terminating dangerous 17 waste management permits. 18 22. Potentially Liable Person (PLP) means any person whom the Department of Ecology finds, 19 based on credible evidence, to be liable under RCW 70.105D.040. The term PLP or PLPs in this Order 20 refers jointly to the Prologis and The Boeing Company. AMB Property Corporation initially became a 21 PLP as a result of its purchase of The Boeing Company's Area 1 Property on December 16, 2005. The 22 AMB Property Corporation purchased Prologis, June 2011, and assumed the name Prologis for the 23 merged corporation. 24 RCRA Facility Assessment (RFA) means the investigation conducted under the direction of 23. 25 the U.S. Environmental Protection Agency – Region Ten (U.S. EPA Region X) for releases and potential 26 releases at or from the BA facility and the information contained in the report entitled "The Boeing

AGREED ORDER - 5

Company, Auburn Fabrication Division, Resource Conservation and Recovery Act Facility Assessment,
 Final Report, June 19, 1998, Prepared by Tetra Tech EM Inc" ("RFA Report"). The RFA Report is
 incorporated into this Order by this reference as if fully set forth herein.

<u>Release</u> means any intentional or unintentional spilling, leaking, pouring, emitting,
emptying, discharging, injecting, pumping, escaping, leaching, dumping, or disposing of dangerous waste
or dangerous constituents into the environment. It also includes the abandonment of or the discarding of
barrels, containers, and other receptacles containing dangerous waste or dangerous constituents and
includes the definition of release in RCW 70.105D.020 (32).

9

25. <u>Remedial Investigation (RI)</u> means a Site wide investigation and characterization

10 performed in accordance with the requirements of Chapter 173-340 WAC and the remedial

11 investigation/feasibility study ("RI/FS") Scope of Work described in Section VI of this Order. The

12 Ecology approved RI will be deemed to be equivalent to a RCRA Facility Investigation, fulfilling the

13 corrective action requirements of WAC 173-303-64610 through 173-303-646920.

14 26. <u>Solid Waste Management Unit (SWMU</u>) means the definition of Solid Waste Management

15 Unit at WAC 173-303-040, including any discernible location at the Site, where solid wastes have been

16 placed at any time, irrespective of whether the location was intended for the management of solid or

17 dangerous waste. These SWMUs include any area at the Site at which solid wastes, including spills, have

18 been routinely and systematically released and include regulated units as defined by Chapter 173-303

19 WAC. Pursuant to the RFA Report and information provided by The Boeing Company, Ecology has

20 identified (in attachment 2) the SWMUs and Areas of Concern (AOCs) at the Site.

21 27. <u>Submittal</u> shall include any work plan, report, status report, or any other written document
 required to be submitted to Ecology pursuant to this Order.

23

III. OBJECTIVES

24

The remedial action objectives for this Site are:

1	1. The PLPs shall complete a remedial investigation and feasibility study (RI/FS) at the Site,
2	to be approved by Ecology and conducted in accordance with the requirements of Chapter 70.105D RCW
3	and Chapter 173-340 WAC. The purpose of the RI/FS is, in part, to satisfy the corrective action
4	requirements of WAC 173-303-64610 through 173-303-646920.
5	2. After completion and Ecology approval of the RI/FS, the PLPs shall prepare a draft
6	Cleanup Action Plan (CAP) according to the requirements of WAC 173-340-380.
7	3. After Ecology review of the draft CAP, Ecology and the PLPs intend to negotiate a draft
8	Consent Decree or new Agreed Order. The Consent Decree or Agreed Order will provide for the
9	implementation of a CAP to satisfy the requirements of WAC 173-340-400 and to concurrently satisfy the
10	corrective action requirements of WAC 173-303-64610 through 173-303-64690.
11	4. Finalization of the CAP and the Consent Decree or Agreed Order after public review and
12	comment. Pursuant to the Consent Decree or Agreed Order, the PLPs will design, construct, operate, and
13	monitor the selected cleanup or corrective actions. The cleanup will be designed to address releases into
14	the environment of dangerous constituents at or from the SWMUs and AOCs at the Site.
15	5. Performance by the PLPs of interim actions as needed, which are required, reviewed and
16	approved by Ecology in accordance with WAC 173-340-430. The purpose of the identified interim
17	actions is to eliminate or reduce the migration of contamination in the surficial and subsurface soils, and
18	groundwater. If interim actions are needed to address releases at SWMUs or AOCs listed in Attachment 2
19	at a future date, then this paragraph will apply.
20	6. If Ecology finds that further remedial investigation and/or cleanup action is required,
21	Ecology will identify any necessary changes to the RI work plan and/or amendments or attachments to the
22	Agreed Order to address such Additional Work. Accordingly, this Agreed Order will integrate prior
23	independent remedial action activities with the remedial action requirements hereunder.
0.4	

24

IV. <u>FINDINGS OF FACT</u>

25

Ecology makes the following Findings of Fact.

1 1. The Boeing Company is and has been the owner and operator of the BA facility since 2 1966. In 1974, the Boeing Company purchased GSA warehouses, adding to the overall facility's size. 3 The BCA-Auburn Plant no longer includes the Safeway, YMCA/Junior Achievement, or PSE properties 4 as described in Section II.5. 5 2. The Boeing Company owned and operated the BA facility as a dangerous waste 6 management facility on or after November 19, 1980, the date which subjects facilities to the permitting 7 requirements of the Resource Conservation and Recovery Act, 42 U.S.C. § 6921 et. seq. (RCRA), 8 including interim status requirements pursuant to Section 3005 of RCRA and implementing regulations 9 thereunder, and including authorized state regulations promulgated in Chapter 173-303 WAC. 10 3. On August 11, 1980, the Boeing Company notified the U.S.E.P.A. Region 10 of its 11 dangerous waste management activities. In the notification, the Boeing Company identified itself as 12 managing the following dangerous wastes under WAC 173-303-082 and WAC 173-303-9904 at the BA 13 facility: F001, F002, F003, F005, F006, F007, F008, F009, F010, F011, F017, and F018. 14 4. Pursuant to the August 11, 1980 notification, the Boeing Company was issued 15 identification number WAD041337130 by U.S. EPA Region X. 16 5. On November 17, 1980, the Boeing Company submitted Part A of the RCRA permit 17 application to the U.S.E.P.A. Region X. In the Part A Application, the Boeing Company identified itself 18 as managing the following dangerous wastes under WAC 173-303-082 and WAC 173-303-9904 at the 19 BA facility: F001, F002, F003, F005, F006, F007, F008, F009, F010, F011, F017, F018, D001, D002, 20 D003, D006, D007, and K054. 21 On July 13, 1987, Ecology issued a final status RCRA Permit to the Boeing Company for 6. 22 the BA facility. 7. On September 24th and 25th, 1997, Tetra Tech EM Inc., contractor to the U.S.E.P.A 23 24 Region X performed a RCRA Facility Assessment (RFA) for releases and potential releases at or from the 25 BA facility. The purpose of an RFA is to identify those areas where releases of hazardous substances, as 26 defined in RCW 70.105D.020 (32), may have occurred or may be occurring.

AGREED ORDER - 8

1	8. Pursuant to the RFA Report and information provided by the Boeing Company, Ecology
2	has identified (in Attachment 2) the Solid Waste Management Units (SWMUs) and Areas of Concern
3	(AOCs) at the Site. SWMUs and AOCs at the Site have been documented in the RCRA Facility
4	Assessment Final Report, prepared for the EPA by Tetra Tech EM Inc., June 19, 1998, and filed at the
5	Department of Ecology, Northwest Regional Office (Ecology -NWRO). Hazardous constituents which
6	have been detected from releases/or potential releases of hazardous substances found in either soil or
7	groundwater include, but are not limited to: methyl ethyl ketone, 4-methyl 2-pentanone, xylenes, ethyl
8	benzene, toluene, styrene, chlorobenzene, 1,2-dichlorobenzene, 1,4-dichlorobenzene, acetone, arsenic,
9	cadmium, barium, mercury, selenium, silver, lead, nickel, zinc, benzene, chromates, cadmium, copper,
10	alodine, 1,1,1-trichloroethane, 1,2- Dichoroethylene, trichloroethylene, perchloroethylene, ethylene glycol
11	ether, lubricant oils, diesel, gasoline, hydraulic fluids, gear oils, sulfuric acid, hydrochloric acid,
12	hydroflouric acid, chromic acid, nitric acid, sodium hydroxide, sodium cyanide, potassium cyanide,
13	polychlorobiphenyls, and polycyclic aromatic hydrocarbons. Some of the releases of these hazardous
14	constituents are recorded in the following documents:
15	(A) Hart Crowser, Inc., May 15, 1986, Auburn Hazardous Waste Storage Facility
16	Potential Contamination Assessment. (156)
17	(B) Hart Crowser, Inc., July 11, 1986, Sump and Contaminated Soil Removal,
18	Hazardous Waste Storage Facility, Boeing Auburn. (155)
19	(C) Boeing Corporate SHEA, Quadrant, Kennedy-Jenks, 1994, Volatile Organics in
20	Groundwater at Auburn Facility. (1467)
21	(D) Kennedy-Jenks, November 1991, Technical Report-Preliminary Subsurface
22	Investigation Rinsewater Treatment Plant, Boeing Auburn. ((2121)
23	(E) Kennedy-Jenks, January 1994, Technical Report-Hydrogeologic Investigation,
24	Rinsewater Treatment Plant Area, Boeing Auburn. (123)
25	(F) PSAPCA and Auburn Fabrication Division, March 1990, NOC (#3191) and
26	Application for Approval. (762)

1	(G)	SECOR International Incorporated (SECOR), July 1996, Preliminary Subsurface
2		Assessment Investigation, 17-10 Building, G&L Post Mill, Boeing Commercial
3		Airplane, Auburn, Washington. (1542)
4	(H)	SECOR International Incorporated (SECOR), September 1996, Preliminary
5		Subsurface Assessment Investigation, 17-06 Building, Briquetting Machine Boeing
6		Commercial Airplane Group. (1324)
7	(I)	Geoengineers, May 1991, Report of Geoenvironmental Services, Subsurface
8		Assessment, Two Underground Storage Tanks Near Building 17-06, Boeing
9		Fabrication Division, Auburn, Washington. (72)
10	(J)	Geoengineers, April 1992, Report of Geoenvironmental Services, Drilling Additional
11		Borings, Building 17-06, Boeing Fabrication Division, Auburn, Washington. (147)
12	(K)	Kennedy-Jenks, May 1996, Technical Report-1995-Hydrogeologic Investigation and
13		Summary Report, Boeing Auburn. (96)
14	(L)	Dames and Moore, 1987-1992, UST Groundwater Monitoring Report. (91)
15	(M)	Boeing Auburn, July 1997, Letter Regarding Report of Release Pursuant to WAC
16		173-340-300(2), 17-05 Building, Boeing –Auburn Plant.
17	(N)	Kennedy-Jenks, February 1995, Technical Report-Hydrogeologic Investigation,
18		Building 17-05, Boeing Auburn. (2119)
19	(0)	Kennedy-Jenks, May 1996, Technical Report, 1995-Hydrogeologic Investigation
20		and Summary Report, Boeing Auburn. (96)
21	(P)	Kennedy-Jenks, April 1997, Final Report-Building 17-05 Vapor Degreaser
22		Removal, Boeing Auburn. (2169)
23	(Q)	Geoengineers, June 1997, Site Characterization Report, 17-29 Titanium Bailing
24		Area, Auburn, Washington. < <ne>></ne>
25	(R)	Geoengineers, May 1991, Report-Sump Tank Removal and Replacement, Building
26		17-29, The Boeing Company, Auburn, Washington. (82)

1	(S) Kennedy-Jenks, May 1994, Environmental Services Decontamination and	
2	Demolition Projects, 17-02 and 17-05 Building. (133)	
3	(T) Kennedy-Jenks, May 1997, Technical Report-Building 17-05 Area Hydrogeologic	
4	<i>Characterization.</i> < <ne>></ne>	
5	(U) AGI Technologies, November 1996, Final Closure Report, Resource Conservation	
6	and Recovery Act (RCRA) Acid and Cyanide Tank Closures, 17-07 Building, Boeing	
7	Commercial Airplane Group-Fabrication Division, Auburn, Washington. (2046)	
8	(V) Kennedy/Jenks; October, 1993, Independent Remedial Action, 17-66 Building East	
9	Construction Site, Boeing Auburn. (154)	
10	(W) Kennedy/Jenks; February 22, 1994, Building 17-08, Environmental Response	
11	Action. (157)	
12	9. Hazardous substances have been and may continue to be released at the Site into the	
13	environment including: surface water drainage areas; groundwater; air; human work areas; and floral and	
14	faunal habitats.	
15	10. The Boeing Company submitted a Part B renewal application dated September 30, 1998	
16	for storage of 220 gallons of dangerous waste within the 17-66 building.	
17	11. The Department of Ecology did not issue a RCRA Permit to cover storage of the 220	
18	gallons of dangerous waste within the 17-66 building. Boeing withdrew its application.	
19	12. The BA facility has been operating under conditions of its Dangerous Waste Permit	
20	signed by Ecology and the U.S.E.P.A. Region X in August 1987. However, the BCA-Auburn Plant no	
21	longer includes the Safeway, YMCA/Junior Achievement, or PSE properties as described in Section II.5.	
22	Other than dangerous wastes treated by its wastewater treatment unit under permit-by-rule, the BCA-	
23	Auburn Plant will not store, treat, or land-dispose of dangerous wastes under the State of Washington	
24	Dangerous Waste Management Permit No. WAD041337130.	
25	13. On August 14, 2002, the Boeing Company and Ecology entered into Agreed Order No.	
26	01HWTRNR-3345, wherein the Boeing Company agreed to complete a remedial investigation, a	

1	feasibility study, draft a CAP, and perform interim actions as necessary to remediate the Site. This Second		
2	Amended Agreed Order No. 01HWTRNR-3345 fully supersedes the 2002 Agreed Order.		
3	14. On December 16, 2005, the AMB Property Corporation purchased the Area 1 Property		
4	[parcels 8, 9 and 12, Attachment 1] from the Boeing Company. The Diagram in Attachment 1 represents		
5	the current BCA-Auburn Plant boundaries, including the Area 1 Property.		
6	15. On July 14, 2004, the Boeing Company began implementation of an interim remedial		
7	action in accordance with Section III (5) of Agreed Order No. 01HWTRNR-3345. A public comment		
8	period was held from May 24, 2004 through June 23, 2004 prior to Ecology approval of the Interim		
9	Action Work Plan. Ecology approved the Interim Action Work Plan by letter dated July 13, 2004. See		
10	Attachment 9, [the work plan]. This interim remedial action is intended to slow the migration and to		
11	remediate trichloroethene in groundwater underneath Solid Waste Management Unit, S-12b, and Area of		
12	Concern, A-08 [see Attachment 2]. Three injections of a non-toxic media have been completed in		
13	accordance with the approved interim remedial action work plan: Final Interim Remedial Action Work		
14	Plan, Boeing Auburn Area 1 (Landau Associates, May 7, 2004). By creating conditions favorable to		
15	reductive dechlorination these injections have, at this time, reduced the levels of hazardous constituents in		
16	groundwater. Currently, the PLPs are completing compliance monitoring for the interim remedial action		
17	as required by WAC 173-340-410.		
18	16. The continuation of the interim action and completion of compliance monitoring for the		
19	interim remedial action is set forth in Attachment 11 of this Agreed Order.		
20	V. ECOLOGY DETERMINATIONS		
21	1. The Boeing Company and Prologis are persons within the meaning of RCW 70.105D.020		
22	(24).		
23	2. The Boeing Company and Prologis are the owners and operators of a dangerous waste		
24	management Facility that has operated, and is operating, under final status subject to Section 3005(e) of		

RCRA and regulations promulgated thereunder, including authorized state regulations in Chapter 173-303
 WAC.

3 3. Certain waste and constituents found at the Site are dangerous wastes and/or dangerous 4 constituents as defined in WAC 173-303-040, and in Section II.10, 11 and 12 of this Order. 5 4. These dangerous wastes and dangerous constituents are considered hazardous substances 6 within the meaning of RCW 70.105D.020 (13). 7 5. Based on the Findings of Fact and the administrative record, Ecology has determined that 8 releases and potential releases of hazardous substances at and/or from the Site that originated at the BA 9 facility present a threat to human health and the environment. Ecology has further determined that this 10 Agreed Order should be issued in order to achieve the objectives stated in Section III hereof. 11 6. Second Amended Agreed Order No. 01HWTRNR-3345 fully supersedes First Amended 12 Agreed Order No. 01HWTRNR-3345. 13 7. By a letter dated April 7, 1999, the Boeing Company voluntarily waived its rights to 14 notice and comment and accepted Ecology's determination that the Boeing Company is a "potentially 15 liable person" under RCW 70.105D.040. 16 8. By a letter dated December 20, 2005, the AMB Property Corporation, now Prologis 17 voluntarily waived its rights to notice and comment and accepted Ecology's determination that the AMB 18 Property Corporation, now Prologis, is a "potentially liable person" under RCW 70.105D.040. 9. 19 Pursuant to RCW 70.105D.030 (1) and RCW 70.105D.050, Ecology may require 20 potentially liable persons to investigate or conduct other remedial actions with respect to the release or 21 threatened release of hazardous substances, whenever it believes such action to be in the public interest.

22 10. Ecology has determined that the actions, including investigations, required by this Order23 are in the public interest.

By Entering into this Order, The Boeing Company and Prologis make no admissions of
fact or liability. However, The Boeing Company and Prologis agree not to contest the above facts or
status as PLPs in any proceeding or administrative action brought by Ecology to enforce this Order.

AGREED ORDER - 13

1

VI. WORK TO BE PERFORMED

2	Based on the foregoing Facts and Determinations, it is hereby ordered that the PLPs take the
3	following remedial actions and that these actions be conducted in accordance with Chapter 173-340 WAC
4	and applicable provisions of Chapter 173-303 WAC, unless otherwise specifically provided for herein.
5	1. Pursuant to Agreed Order No. 01HWTRNR-3345, Section VI.1., the Boeing Company
6	submitted a draft remedial investigation ("RI") work plan which was approved by Ecology on February
7	17, 2004. The draft RI work plan follows the requirements specified in WAC 173-340-350 and the Scope
8	of Work, Attachment 3. On December 5, 2003, Ecology approved an RI work plan for the Area 1
9	Property. The PLPs shall continue to implement the RI work plans as approved by Ecology. Other
10	documents related to the RI, Feasibility Study (FS) or Draft Cleanup Action Plan (DCAP) may be viewed
11	at a local public repository. See Attachment 4, Public Participation Plan, Section III [repository].
12	2. Pursuant to Agreed Order No. 01HWTRNR-3345 Section VI. 2, the Boeing Company
13	submitted to Ecology-NWRO reports and data generated with respect to the independent remedial
14	investigation and remediation activities at SWMUs and AOCs listed in Attachment 2, column III:
15	Independent Remediation Work Conducted and/or Additional Work Not Needed to Meet Standards at the
16	Site. These reports and data are listed in Attachment 6.
17	3. The PLPs shall provide for the continued implementation, including monitoring, of the
18	Area 1 Property interim action as set forth in Attachment 11.
19	4. If Ecology identifies any additional remedial investigation beyond those activities
20	conducted independently as being necessary to meet the objectives of this Agreed Order, Ecology will
21	notify the PLPs of its requirements for Additional Work as provided in Section VII.7.
22	5. Upon completion of the remedial investigation work described in the final Ecology-
23	approved RI work plan, the PLPs shall submit to Ecology-NWRO a draft RI report as provided in the
24	approved RI work plan schedule. Within 60 days of receipt of Ecology comments on the RI Report, the
25	PLPs shall submit a revised RI report incorporating Ecology's comments.

1	6. Within sixty (60) calendar days after receiving written Ecology approval of the final RI
2	report, the PLPs shall submit to Ecology-NWRO a draft FS work plan. The draft FS work plan shall be
3	written in accordance with WAC 173-340-350 and shall contain, at minimum, methods for evaluating the
4	technical, environmental health, human health, and financial costs associated with each cleanup action
5	alternative. The FS work plan shall contain a time schedule for completing the FS activities and, at a
6	minimum, the methods for evaluating the following:
7	(A) Current Conditions: the PLPs shall update Ecology on the current nature and extent of
8	dangerous constituents released into the environment at or from the SWMUs and AOCs
9	addressed in the RI, if different from the results of the RI report.
10	(B) Technical: the PLPs shall develop a set of cleanup action alternatives to address those
11	SWMUs and AOCs to be evaluated in the FS. The initial set of cleanup action alternatives shall
12	include options that meet the requirements of WAC 173-340-360 and the expectations of WAC
13	173-340-370. The FS work plan may incorporate prescreening of cleanup action alternatives in
14	order to streamline the FS process, and may propose a focused analysis to support the use of
15	presumptive remedies recognized in U.S. Environmental Protection Agency cleanup guidelines.
16	The PLPs shall, at a minimum, evaluate the following for each pre-screened cleanup action
17	alternative:
18	(i) the permanence and practicability of the option, based upon factors of overall
19	protectiveness of human health and the environment, long-term effectiveness,
20	manageability of short-term risks, permanent reduction of toxicity, mobility and volume
21	of dangerous constituents, cost, implementability, and community concerns as specified
22	in WAC 173-340-360(3)(f);
23	(ii) chemical and physical characteristics and estimated quantity of remediation
24	wastes generated;
25	(iii) compliance with all applicable Federal and State applicable, relevant, and
26	appropriate regulations ("ARARs"), including but not limited to standards in RCRA, the

AGREED ORDER - 15

1	Clean Water Act, 33 U.S.C. § 1251 et. seq., the Clean Air Act, 42 U.S.C. § 7401 et. seq.,
2	the Model Toxics Control Act ("MTCA"), RCW 70.105D, the Toxic Substances Control
3	Act, 15 U.S.C. § 2601 et. seq. ("TSCA"), and the Safe Drinking Water Act, 42 U.S.C. §
4	1401 et. seq. ("SDWA");
5	(iv) limitations of Site use as a result of implementing each cleanup action
6	alternative, including but not limited to deed restrictions, access control mechanisms to
7	prevent unauthorized entry, surface covers, and prohibition on use of groundwater for
8	drinking, agricultural, or industrial purposes;
9	(v) if required by Ecology, examples of Sites using the same cleanup action
10	alternatives for similar dangerous constituents, and a discussion of the results achieved;
11	and
12	(vi) discussion of laboratory or bench-scale tests necessary to evaluate the
13	effectiveness of any cleanup action alternative.
14	(C) Environmental: Evaluate the future long and short term adverse effects on the
15	environment of each remedial option, and measures necessary to mitigate any adverse effects.
16	Evaluate both the positive and negative environmental consequences of implementing each
17	remedial option.
18	(D) Human Health and the Environment: Evaluate the future long and short term potential
19	exposure to human and environmental receptors of residual contamination during and after
20	remedy implementation, based on potential exposure routes and toxicity of dangerous
21	constituents.
22	(E) Cost Estimate: Evaluate the capital costs (mobilization, design, construction, permits,
23	licenses, and taxes) for each cleanup action alternative. Include, at a minimum, quantities, unit
24	costs, and total costs, annual operating costs (labor, expendable goods, utilities, and laboratory
25	analysis), and present worth analysis of each remedial option. Further, the cost of removing new
26	structures can not be a factor in favor of a less permanent clean up action under WAC 173-340-
	AGREED ORDER - 16 Date Printed:

- 360(3). "New structures" mean structures not in existence as of the effective date of this Agreed
 Order.
- 3 (F) Restoration Timeframe: Submit an estimate of the time required to meet the remediation
 4 goals for each cleanup action alternative in the draft FS work plan.
- G) Recommendation: Provide a recommendation for one or more cleanup action
 alternatives based on the factors described above.

7 7. Upon completion of the feasibility study work described in the final Ecology approved
8 FS work plan, the PLPs shall submit to Ecology-NWRO a draft FS report as provided in the approved FS
9 work plan schedule. Within 60 days of receipt of Ecology comments on the FS, the PLPs shall submit a
10 revised FS incorporating Ecology's comments.

8. After Ecology concurrence and approval of the final FS report, and if required by Ecology, the PLPs shall submit a draft cleanup action plan ("DCAP") to Ecology - NWRO within forty five (45) calendar days of receipt of formal notification of such requirement by letter. The notification shall identify the required scope of the DCAP. The DCAP shall meet the requirements of WAC 173-340-360, -400(1) through (9), -410 as well as WAC 173-303-64610 through 173-303-646920. The PLPs acknowledge that monitoring wells or other remediation technology may need to be placed within the new building structures or offices as part of a final cleanup action plan ("CAP").

9. The scope of any DCAP required by Ecology shall be subject to the Additional Work
 provisions in Section VII.7.

10. After the parties agree upon the terms of a DCAP, the PLPs shall enter into negotiations
with Ecology regarding a consent decree or agreed order to design, construct, operate, and monitor the
chosen remedial option(s) described in the DCAP. Existence of new structures, as defined in paragraph
VI. 6 (E), on the Site cannot frustrate remedial actions Ecology determines to be necessary as part of final
clean up. After public review and comment on the DCAP document and agreed order or consent decree,
Ecology may modify the DCAP and agreed order or consent decree. Then Ecology shall approve a final
CAP.

1	11. Notwithstanding the foregoing, if the Remedial Investigation identifies releases of				
2	dangerous constituents at the Site from both the PLPs and non-PLP third party sources which, due to				
3	source(s), nature and/or location, render it impracticable for the PLPs to remediate the releases from the				
4	PLPs sources without involving third parties (the "Commingled Releases"), Ecology may allow the PLPs				
5	to conduct an additional Remedial Investigation and/or a Feasibility Study, and prepare a Cleanup Action				
6	Plan addressing Commingled Releases pursuant to a separate agreed order or consent decree, as				
7	appropriate. In such event, the PLPs and Ecology may proceed as follows under this Agreed Order:				
8	(A) Prepare a DCAP and issue an Interim CAP under this Agreed Order addressing non-				
9	Commingled Releases and, as appropriate, any sources of Commingled Releases at the Site,				
10	pending issuance of a CAP addressing Commingled Releases under separate order or decree;				
11	(B) Proceed with negotiation of a consent decree or agreed order to implement the Interim				
12	CAP; and				
13	(C) Issue a final CAP under this Agreed Order incorporating the CAP for the Commingled				
14	Releases once it is finalized under separate order or decree.				
15	In lieu of or in addition to the foregoing, the PLPs and Ecology may agree to take such other				
16	actions as may be appropriate to provide for remediation of non-Commingled Releases and Commingled				
17	Releases under separate orders or decrees.				
18	12. The PLPs shall follow the reporting guidelines in WAC 173-340-840 for all parts of this				
19	order unless otherwise agreed to by both Ecology and the PLPs. All data generated pursuant to this order				
20	shall be submitted to Ecology-NWRO, including all outlier and duplicate data. In addition, all				
21	groundwater, sediment, surface water, and soil data generated shall be submitted to Ecology-NWRO as				
22	copies of the original reported laboratory data sheets, in tabulated data format, and in electronic format				
23	using the most recent compatible software to which Ecology and the PLPs agree, for the constituent				
24	concentrations detected above method detection limits in the above referenced environmental media.				
25	Pursuant to WAC 173-340-840(5), the PLPs shall submit all soil and groundwater sampling data to				
26	Ecology according to the requirements of Ecology Policy 840 Data Submittal Requirements. Laboratory				
	AGREED ORDER - 18 Date Printed:				

detection limits and practical quantitation limits shall be reported for each chemical constituent
 concentration detected.

3	13. The PLPs shall submit quarterly status reports to Ecology-NWRO, starting from the			
4	effective date of this Agreed Order until all of the requirements of this Agreed Order are completed to			
5	Ecology's satisfaction. The submittal shall be due on the 15th day of the month following the three-			
6	month activity period. The PLPs shall describe the following in each status report:			
7	(A) all work conducted pursuant to this Agreed Order during the last quarter, including interim			
8	action work;			
9	(B) occurrence of any problems, how problems were rectified, deviations from the work plans			
10	and an explanation for all deviations;			
11	(C) projected work to occur in the upcoming quarter;			
12	(D) summaries of significant findings, changes in personnel, summaries of contacts with all			
13	federal, state, local community, and public interest groups; and			
14	(E) all laboratory analyses (as copies of the original laboratory reporting data sheets, in			
15	tabulated data format) for which quality assurance procedures were completed during the			
16	quarter.			
17	If both Ecology and the PLPs agree that such a change is necessary, the frequency of progress report			
18	submittals shall be revised. This would be an example of a minor modification that may be agreed to by			
19	Ecology and the PLPs without public comment.			
20	14. The PLPs shall notify Ecology's Project Coordinator in writing of any newly-identified			
21	SWMU(s) or AOCs, newly-discovered releases from known SWMU(s) or AOCs, and newly-discovered			
22	significant releases of dangerous waste or dangerous constituents, as defined in WAC 173-303-			
23	806(4)(a)(xxiv)(A), at or from the Site no later than fifteen (15) calendar days after discovery. Additional			
24	activities to address new discoveries are subject to the Additional Work provisions of Section VII.7.			

25

VII. TERMS AND CONDITIONS OF ORDER

1	1. <u>Public Notices</u> : Ecology shall be responsible for providing public notice. Ecology			
2	reserves the right to modify or withdraw any provisions of this Order should public comment disclose			
3	facts or considerations to Ecology that the Order is inadequate or improper in any respect.			
4	2. <u>Remedial and Investigative Costs</u> : The PLPs agree to pay costs incurred by Ecology			
5	pursuant to this Order. These costs shall include work performed by Ecology or Ecology's contractors for			
6	investigations, remedial actions, and Order preparation, negotiations, oversight and administration.			
7	Ecology costs shall include costs of direct activities and support costs of direct activities as defined in			
8	WAC 173-340-550(2). The PLPs agree to pay the required amount within thirty (30) days of receiving			
9	from Ecology an itemized statement of costs that includes a summary of costs incurred, an identification			
10	of involved staff, and the amount of time spent by involved staff members on the project. A general			
11	description of work performed will be provided upon request. Itemized statements will be prepared			
12	quarterly. Failure to pay Ecology's costs within thirty (30) days of receipt of the itemized statement of			
13	costs will result in interest charges. Interest charges shall accrue at the rate designated in WAC 173-340-			
14	550(4). The current rate is 12% (annual percentage rate, compounded monthly) on all remedial action			
15	costs not paid within ninety days of the billing date.			
16				
17	In order to assure payment to the proper authority, the address for mailing via the post office is:			
18 19 20 21 22	Department of Ecology Cashiering Unit P.O. Box 47611 Olympia, WA 98504-7611			
23	If you choose to send a check by a messenger/overnight delivery service, the address to use is:			
24 25 26 27	Cashiering Section 300 Desmond Drive SE Lacey, WA 98503			
28	Please indicate on the check that it is for cost recovery at the BCA – Auburn Plant so it is properly			
29	credited. Enclosing the bottom portion of our invoice will accomplish this.			

1	3. <u>Financial Assurance</u> : The PLPs shall establish and maintain financial assurance for				
2	corrective action in the amount necessary to implement the Cleanup Action Plan (CAP) and the				
3	Compliance Monitoring Plan (CMP), as provided in WAC 173-340-380 and WAC 173-340-410,				
4	respectively, and required by WAC 173-303-64620. Except as modified below and in the absence of				
5	detailed regulations, Federal Register/Vol. 51, No. 206/Friday, October 24, 1986/Proposed rules and				
6	Federal Register/Vol. 61, No. 85/Wednesday, May1, 1996/Proposed Rules, shall be used as guidance for				
7	providing financial assurance for corrective action. In a manner consistent with this guidance, the				
8	Permittees shall make satisfactory demonstration to the Department that all financial assurance documents				
9	include appropriate provision for the Department to gain access to the funds to implement corrective				
10	action in the event the Department determines that corrective action is not being conducted in accordance				
11	with the provisions of this permit. Upon evidence of the failure of the Permittees to demonstrate				
12	continuous financial assurance for corrective action, the Department may direct the payment or use of				
13	funds to assure that the approved corrective action plan is carried out. Acceptable mechanisms include				
14	letters of credit, surety bonds guaranteeing performance, liability insurance, trust funds, or equivalent				
15	mechanisms as approved by the Department. The PLPs shall provide Ecology's project manager with				
16	documentation of this financial assurance within sixty (60) days of Ecology's first issuance of the final				
17	CAP/CMP. The PLPs shall adjust the financial assurance coverage and provide Ecology's project				
18	manager with documentation of the updated financial assurance for:				
19	(A) Inflation, annually, within 30 days of the anniversary date of the first issuance of the final				
20	CAP/CMP; or if applicable, the modified anniversary date, that has been set in (B), below,				
21	and				
22	(B) Changes in cost estimates, within 30 days of Ecology's issuance of the modified CAP/CMP,				
23	which modifies the anniversary date.				
24	Each PLP shall notify Ecology's project manager by certified mail of the commencement of a voluntary				
25	or involuntary bankruptcy proceeding under Title 11, United States Code, naming that PLP, within ten				

1	(10) days after commencement of the proceeding. A guarantor of a corporate guarantee must make such a			
2	notification if he is named as debtor as required under the terms of the corporate guarantee. A PLP who			
3	has established financial assurance for corrective action with an acceptable mechanism, mentioned above,			
4	will be deemed to be without the required financial assurance or liability coverage:			
5	(A) in the event of bankruptcy of the trustee or issuing institution; or			
6	(B)	the authority o	f the trustee institution to act as trustee has been suspended or revoked; or	
7	(C)	(C) the authority of the institution issuing the surety bond, letter of credit or insurance policy		
8	has been suspended or revoked.			
9	The PLP in bankruptcy must establish other financial assurance within sixty (60) days of bankruptcy, or			
10	suspension/revocation of authority.			
11	4.	Designated Project Coordinators:		
12 13 14 15 16 17 18 19	The Project Co	oordinators for E Name: Address: Telephone: FAX: E-mail:	cology are: Ms. Robin Harrover Department of Ecology - Northwest Regional Office 3190 160th Avenue S.E. Bellevue, WA 98008-5452 (425)-649-7232 (425)-649-7218 rhar461@ecy.wa.gov	
20 21 22 23 24 25 26 27	The Project Co	oordinator for the Name: Title: Address: Telephone: Email:	e Site is: Mr. Carl Bach Environmental Remediation Project Manager The Boeing Company P.O. Box 3707, M/C 9U4-26 Seattle, WA 98124-2207 (206) 898-0438 carl.m.bach@boeing.com	
28	The Project Coordinator(s) shall be responsible for overseeing the implementation of this Order. To the			
29	maximum extent possible, communications between Ecology and the PLPs, and all documents, including			
30	reports, approv	vals, and other co	prrespondence concerning the activities performed pursuant to the terms	
31	and conditions of this Order shall be directed through the Project Coordinator(s). Notification			
32	requirements in this Order may be satisfied by electronic mail with agreement between the Project			

Coordinators. Should Ecology or the PLPs change Project Coordinator(s), written notification shall be
 provided to Ecology or the PLPs at least ten (10) calendar days prior to the change.

3 5. Ecology Approvals and Short-form Dispute Resolution Process: The PLPs shall submit 4 draft Submittals pursuant to the schedules required by this Agreed Order or as otherwise approved 5 hereunder. With the exception of periodic status reports, Ecology will review all Submittals required by 6 this Order, and will provide written approval, or disapproval with comments and/or modifications to be 7 made by the PLPs. A Submittal shall become final when it is approved by Ecology in writing. Once 8 approved in writing by Ecology, all submittals to Ecology are incorporated by reference and become 9 enforceable parts of this Agreed Order, as if fully set forth herein. Following approval of any Submittal, 10 the PLPs shall commence all Work required thereby within fifteen (15) days after receipt of Ecology 11 approval, unless a longer time is specified by Ecology.

During the performance of work under an approved submittal, the Project Coordinators may verbally agree to minor field modifications to the submittal. In such case, the PLPs shall submit a description of the modification to Ecology's Project Coordinator in writing within seven (7) days of the verbal agreement, and Ecology's Project Coordinator shall provide written confirmation of the agreed modification.

17 When Ecology provides comments or proposed modifications to the PLPs on any Submittal, and 18 if the PLPs agree with Ecology's comments and/or proposed modifications, the PLPs shall submit a 19 revised Submittal incorporating all of Ecology's comments and/or proposed modifications within thirty 20 (30) days of the PLPs' receipt of Ecology's comments and/or proposed modifications, unless a longer time 21 is approved by Ecology. If following submission of a draft Submittal, the PLPs disagree or have 22 questions concerning Ecology's comments and/or required modifications, the PLPs, within seven (7) days 23 after receipt of Ecology's comments or required modifications, may request a meeting or telephone 24 conference, with the Ecology Project Coordinator. Such request shall be in writing and will establish a 25 twenty (20) day informal resolution period, unless a longer period is approved by Ecology, beginning 26 with the date of the written request. The written request shall include a statement of the issues the PLPs 27 wish to address.

The informal resolution period shall extend the due date for resubmittal. If agreement is reached 1 2 within the informal resolution period, the PLPs shall incorporate into a revised Submittal the agreed-upon 3 comments and/or modifications within thirty (30) days after reaching agreement, unless a longer time is 4 specified by Ecology. If agreement is not reached within the informal resolution period, Ecology shall 5 send a written letter of disapproval to the PLPs. The PLPs shall then either submit a revised, final draft 6 Submittal which incorporates all Ecology comments or required modifications within 30 days of receipt 7 of such written letter of disapproval, unless a longer time is approved by Ecology, or the PLPs may 8 invoke the dispute resolution procedures in Section VII.11 (B) of this Agreed Order for all comments or 9 required modifications the PLPs wish to challenge.

10 6. Performance: The PLPs shall notify Ecology as to the company(s) or firm name(s) of 11 any consulting engineer(s), geologist(s), hydrogeologist(s), or similar expert(s), and of any contractors 12 and/or subcontractors to be used in carrying out the terms of this Order, at least seven (7) calendar days in 13 advance of their involvement at the Site, if possible. The PLPs shall provide a copy of this Order to all 14 consultants and contractors retained to perform work required by this Order and shall ensure that all work 15 undertaken by such consultants, contractors and subcontractors will be in compliance with this Order. 16 Upon request, the PLPs shall provide the names of such engineers, hydrogeologists, toxicologists, or 17 similar experts, and of any contractors or subcontractors used in carrying out the terms of this Order.

WAC 173-340-400(6)(b)(i) requires that "construction" performed on the Site <u>must</u> be under the supervision of a professional engineer registered in Washington. In addition, all work performed by the PLPs pursuant to this Order shall be under the direction and supervision, as necessary, of a professional engineer or hydrogeologist, or similar expert, with appropriate training, experience and expertise in hazardous waste Site investigation and cleanup.

Unless manufacturing schedule needs interfere, the PLPs shall provide seven (7) working days notice to Ecology's Project Coordinator prior to commencing any major work activities pursuant to this Agreed Order. Major work activities that require a seven (7) day notice will be described in the Ecology approved RI/FS and interim action work plans. If manufacturing schedules require that major work activities be taken pursuant to this Agreed Order in less than seven days, the PLPs will give twenty-four AGREED ORDER - 24 Date Printed: (24) hours notice to Ecology's Project Coordinator prior to commencing this major work. Except as
 allowed by WAC 173-340-515(2) or where necessary to abate an emergency situation, the PLPs shall not
 perform any remedial actions at the Site, outside that required by this Order, unless Ecology approves the
 independent remedial action in writing prior to the additional remedial action.

5 7. Additional Work: Ecology may determine or the PLPs may propose that additional work 6 is or may be necessary to implement this Agreed Order (henceforward "Additional Work"). If the PLPs 7 propose the Additional Work, Ecology will respond to the proposal in writing within an appropriate time 8 period, not to exceed 30 days. If the Additional Work is required by Ecology, then Ecology will specify 9 in writing the basis for its determination that the Additional Work is necessary. Within fifteen (15) days 10 after the receipt of such written determination, the PLPs shall notify Ecology-NWRO of its willingness to 11 perform the Additional Work or may request a meeting with the Ecology Project Coordinator to discuss 12 the Additional Work as specified in the informal dispute resolution procedures set forth in Section VII.5. 13 If, after such meeting, the PLPs disagree with Ecology's request for Additional Work, the PLPs may 14 invoke dispute resolution procedures set forth in Section VII.11B below. If dispute resolution is not 15 invoked on Ecology's written request for Additional Work, the PLPs shall submit a work plan for Ecology 16 review incorporating the Additional Work within thirty (30) days (or more, if approved by Ecology) after 17 either submitting notice of its willingness to perform or the date of the meeting with Ecology, as 18 applicable. Ecology's review and approval of such work plan shall be subject to the procedures set forth 19 in Section VII.5. Upon written approval of the work plan, the PLPs shall implement the work plan in 20 accordance with the schedule contained therein.

21 8. Access: Except as provided below regarding safety and security precautions, Ecology or 22 any Ecology authorized representative shall have the authority to enter and freely move about the Site that 23 the PLPs own, control, or have access rights to (to the extent that the PLPs have such rights) at all 24 reasonable times for the purposes of, among other things, inspecting records, operation logs, and contracts 25 related to the work being performed pursuant to this Order; reviewing the progress in carrying out the 26 terms of this Order; conducting such tests or collecting samples as Ecology or the Project Coordinator 27 may deem necessary; using a camera; sound recording; or using other documentary type equipment to AGREED ORDER - 25 Date Printed:

1 record work done pursuant to this Order; and verifying the data submitted to Ecology by the PLPs. By 2 signing this Agreed Order, the PLPs agree that this Order constitutes reasonable notice of access, and the 3 PLPs agree to allow Ecology and all Ecology agents access to the Site that the PLPs either own, control, 4 or have access rights to (to the extent that the PLPs have such rights) at all reasonable times, with 5 reasonable notice from Ecology, for purposes of overseeing work performed under this Order. Ecology 6 shall allow split or replicate samples to be taken by PLPs during an inspection unless doing so interferes 7 with Ecology's sampling. The PLPs shall allow split or replicate samples to be taken by Ecology and shall 8 provide seven (7) days notice before any sampling activity.

9 If photographs are to be taken in a U.S. Department of Defense (DOD) area that contains items 10 important to national security, then the PLPs shall provide a competent photographer to take photographs 11 under the instruction of Ecology staff on Site subject to limitations required for protection of DOD 12 secrets, including any required DOD security clearance. All such photographs will be developed and 13 previewed by the PLPs, to enable the PLPs to assure compliance with security requirements for protection 14 of DOD secrets. The PLPs shall provide two copies to Ecology-NWRO of all photographs taken within 15 seven (7) days excepting any photographs for which additional precautions must be followed to protect 16 DOD secrets. The PLPs shall provide Ecology with a log of the photographs taken, and shall identify 17 photographs withheld for protection of DOD secrets.

18 The PLPs' Project Coordinator or other representative may accompany Ecology's 19 representative(s) at all times for purposes of plant security, and compliance with plant and work area 20 health and safety precautions. If Ecology or its representatives seek to perform their duties at the Site in a 21 manner which is not in compliance with any written plant or work area health and safety requirement or 22 rule, or any applicable federal or state law or promulgated regulation, the PLPs' Project Coordinator or 23 other representative may verbally notify such Ecology representative(s) of the non-compliance. Ecology 24 shall ensure that its employees, contractors, and other representatives comply with all applicable health 25 and safety laws, and with all plant and work area health and safety plans of which Ecology or its 26 representatives have notice.

1	If Ecology desires to obtain access to any manufacturing or process areas at which PLPs conduct				
2	activities utilizing information which is proprietary, the PLPs may request in writing, pursuant to RCW				
3	43.21A.160, that documentation of such areas be designated as confidential business information to				
4	protect against Ecology disclosure of information collected. If Ecology desires to obtain access to any				
5	manufacturing or process areas at which the PLPs conduct activities utilizing secrets associated with U.S.				
6	Department of Defense (DOD) projects, the PLPs may request a reasonable delay to providing such				
7	access so that PLPs' and Ecology's representatives may further confer regarding the purpose of the				
8	inspection in the area and appropriate precautions for protecting DOD secrets. Ecology shall be				
9	responsible for obtaining any DOD required security clearance prior to entering secured areas.				
10	If access to areas not owned by the PLPs is necessary for performance of work under this Order,				
11	the PLPs shall use reasonable best efforts to obtain such access and shall include Ecology representatives				
12	among those persons authorized to enter and inspect property under any access agreements obtained for				
13	performance of work under the Order. The PLPs shall promptly notify Ecology in writing if it is unable				
14	to obtain necessary access agreement(s) from owners of properties not owned by the PLPs and shall				
15	provide a written description of how the PLPs have used reasonable best efforts to obtain access.				
16	9. <u>Public Participation</u> : The PLPs shall update the Public Participation Plan for the Site,				
17	Attachment 4, as needed. Ecology will review and approve updates to the plan and will maintain the				
18	responsibility for public participation at the Site. The PLPs shall help coordinate and implement public				
19	participation for the Site as specified in the Ecology-approved Public Participation Plan.				
20	10. <u>Retention of Records</u> : The PLPs shall preserve in a readily retrievable fashion, during				
21	the pendency of this Order and for ten (10) years from the date of issuance by Ecology of written				
22	notification that all requirements of this Order have been satisfactorily completed, all submittals to				
23	Ecology, QA/QC memoranda and audits, final work plans, final reports, field notes and laboratory				
24	analytical and testing reports in its possession relevant to this Order. Should any portion of the work				
25	performed thereunder be undertaken through contractors or agents, the PLPs agree to include in their				
26	contract(s) with all such contractors or agents a record retention requirement meeting the terms of this				
27	paragraph.				
	AGREED ORDER - 27 Date Printed:				

- <u>Dispute Resolution</u>: In the event a dispute arises as to a decision by Ecology's Project
 Coordinator, the parties shall utilize the dispute resolution procedure set forth below.
- 3 (A) The PLPs shall utilize the informal dispute resolution processes provided in Section VII.5
 4 prior to proceeding with the formal dispute resolution processes described in Section
 5 VII.11.(B).
- 6 (B) The PLPs may then request Ecology management review of the Ecology Project 7 Coordinator's letter of disapproval issued at the completion of the informal dispute 8 resolution process set forth in Section VII.5. This request shall be submitted in writing to 9 the Program Manager within seven (7) days of receipt of the Ecology Project 10 Coordinator's letter of disapproval. In such case, the PLPs shall provide the Program 11 Manager with a written statement of their position. The PLPs may also request an 12 extension of the due date for any Submittal, or other activity required hereunder, affected 13 by the dispute. Ecology's Program Manager shall conduct a review of the dispute, and 14 shall issue a written decision regarding the dispute within thirty (30) days of the PLPs' 15 request for review. The Program Manager's decision shall be Ecology's final decision on 16 the disputed matter. If a Submittal is affected by the dispute, then within thirty (30) days 17 after receipt of the Program Manager's final decision, unless a longer time is approved by 18 Ecology, the PLPs shall submit a revised Submittal which conforms to the Program 19 Manager's final decision.

The parties agree to utilize the dispute resolution process only in good faith and agree to expedite, to the extent possible, the dispute resolution process whenever it is used. Implementation of the formal dispute resolution procedures in Section VII.11 (B) shall not provide a basis for delay of any activities required in the Order, unless Ecology agrees in writing to a schedule extension.

12. <u>Reservation of Rights/No Settlement</u>: This Agreed Order is not a settlement under
 Chapter 70.105D RCW. Ecology's signature on this Order in no way constitutes a covenant not to sue or
 a compromise of any Ecology rights or authority. Ecology will not, however, bring an action against the
 PLPs to recover remedial action costs paid to and received by Ecology under this Agreed Order. In
 AGREED ORDER - 28

addition, Ecology will not take additional enforcement actions against the PLPs to require those remedial
 actions required by this Agreed Order, provided the PLPs comply with this Agreed Order.

Ecology reserves the right to require additional remedial actions at the Site should it deem such
actions necessary.

Ecology also reserves all rights regarding the injury to, destruction of, or loss of natural resources
resulting from the releases or threatened releases of dangerous constituents from the Site.

In the event Ecology determines that conditions at the Site are creating or have the potential to
create a threat to the health or welfare of the people on the Site or in the surrounding area or to the
environment, Ecology may order the PLPs to stop further implementation of this Order for such period of
time or take other action as needed to abate the threat.

11 13. <u>Transference of Property</u>: The PLPs shall notify Ecology-NWRO of the intent to transfer 12 ownership by submitting the form in Attachment 12 to this Order with any changes proposed for the 13 BCA-Auburn Plant noted on the form. Prior to any voluntary conveyance or relinquishment of title, 14 easement, leasehold, or other interest by the PLPs in any portion of the Site, the PLPs shall provide for 15 continued implementation of all applicable requirements of this Order and implementation of any 16 remedial actions found to be necessary as a result of this Order. Nothing in the preceding sentence shall 17 alter or restrict the PLPs obligations under this Order for implementation of the actions described therein.

Prior to any involuntary conveyance or relinquishment of an interest in any portion of the Site, the PLPs shall use reasonable best efforts to provide for continued implementation of this Order and of necessary remedial actions, and shall notify Ecology if such efforts are unsuccessful. If Ecology utilizes its authority to provide for continued implementation of the Order or the remedy on the portion of the Site involuntarily conveyed or relinquished (e.g., if Ecology obtains access for the PLPs) the PLPs shall be responsible for such continued implementation as directed by Ecology in writing.

Prior to transfer of any legal or equitable interest by the PLPs in the Site or any portions thereof,
 the PLPs shall serve a copy of this Order upon any prospective purchaser, lessee, transferee, assignee, or
 other successor in such interest at least thirty (30) days prior to any transfer. At least ninety (90) days
 prior to finalization of any transfer, the PLPs shall notify Ecology of the contemplated transfer and of the
 AGREED ORDER - 29

1 available information, for the portion of the Site to be transferred, concerning SWMUs and AOCs, the 2 likelihood of releases of hazardous constituents at or from that portion of the Site, the likelihood of 3 releases of hazardous constituents from other portions of the Site onto the portion to be transferred, and 4 the remedial actions completed or underway. Ecology shall use best reasonable efforts to review the 5 information submitted by the PLPs on the portion of the Site to be transferred, and issue a written 6 determination within 30 days after receiving same that either (a) Ecology will not require additional 7 remedial investigation work or remedial action at this time on the property to be transferred, or (b) the 8 property to be transferred continues to require additional remedial actions due to known or suspected 9 releases of hazardous constituents on that portion of the Site.

10

14.

<u>Compliance with Other Applicable Laws:</u>

(A) All actions carried out by the PLPs pursuant to this Order shall be done in
 accordance with all applicable federal, state, and local requirements, including requirements to
 obtain necessary permits.

14 **(B)** The PLPs have a continuing obligation to determine whether permits or 15 approvals exempted under RCW 70.105D.090(1) would otherwise be required for actions under 16 this Order. In the event the PLPs determine that permits or approvals applicable to the action 17 under this Order are exempted under RCW 70.105D.090(1), they shall promptly notify Ecology of this determination. Ecology shall determine whether Ecology or the PLPs shall be responsible 18 19 to contact the appropriate state and/or local agencies regarding such permits or approvals. If 20 Ecology so requires, the PLPs shall promptly consult with the appropriate state and/or local 21 agencies, and provide Ecology with written documentation from those agencies regarding the 22 substantive requirements those agencies believe are applicable to the remedial action. Ecology 23 shall make the final determination on the additional substantive requirements that must be met by 24 the PLPs and on how the PLPs must meet those requirements. Ecology shall inform the PLPs in 25 writing of these requirements. Once established by Ecology, these substantive requirements shall 26 be made enforceable requirements of this Order. The PLPs shall not begin or continue the action 27 subject to the substantive requirements until Ecology makes its final determination that the

- appropriate substantive requirements of those agencies have been identified. Ecology shall
 ensure that notice and opportunity for comment is provided to the public and appropriate agencies
 prior to establishing the substantive requirements under this section.
- 4 (C) Pursuant to RCW 70.105D.090(2), in the event Ecology determines that the 5 exemption from the procedural requirements pursuant to RCW 70.105D.090(1) would result in 6 the loss of approval from a federal agency which is necessary for the State to administer any 7 federal law, the exemption shall not apply and the PLPs shall comply with both the procedural 8 and substantive requirements of the laws referenced in RCW 70.105D.090(1), including any 9 requirements to obtain permits.
- 10 15. <u>Extension of Schedule</u>: The PLPs may request an extension of any deadline or schedule
 set forth in this Order or an approved Submittal. Any such request shall be submitted in writing to
 Ecology's Project Coordinator at least twenty (20) days in advance of the pending deadline, if possible.
 The request shall specify the reason(s) the extension is needed.
- An extension shall only be granted for such period of time as Ecology determines is reasonable
 under the circumstances. A requested extension shall not be effective until approved by Ecology.
 Ecology shall act upon any written request for extension in a timely fashion. It shall not be necessary to
 formally amend this Order when a schedule extension is granted.
- 18 The burden shall be on the PLPs to demonstrate that the extension has been submitted in a timely 19 fashion and that good cause exists for granting the extension. Good cause includes, but is not limited to, 20 the following:
- (A) Unforeseeable circumstances beyond the reasonable control of the PLPs or any
 person or entity controlled by the PLPs that delay or prevent the timely performance of any
 obligation under this Order despite the PLPs' best efforts to fulfill the obligation; or
- 24 (B) Acts of God, including fire, flood, blizzard, extreme temperatures, storm, or other
 25 unavoidable event or casualty.
- Neither increased costs of performance nor changed economic circumstances shall be considered
 circumstances beyond the reasonable control of the PLPs.

1	Ecology shall give the PLPs written notification in a timely fashion of any extensions granted			
2	pursuant to this section. The period of delay approved by an extension under this section shall be an			
3	"excused delay" which is not subject to Stipulated Penalties under Section VIII.			
4				
5	VIII. STIPULATED PENALTIES			
6	Except for excused delays described in Subsections 5, 11 & 15 of Section VII, for each day the			
7	PLPs fail to comply with any time schedules contained in this Agreed Order, or any other time schedules			
8	approved or modified in writing by Ecology, the PLPs stipulate and agree that Ecology may, at its			
9	discretion, assess a civil penalty. The penalties to be assessed are as follows:			
10	1. For failure to commence or complete field work by the time required by this Order; and for			
11	failure to submit any work plans or reports by the time required by this Order: \$500.00 per day for each of			
12	the first seven (7) days of delay; \$1,000.00 per day for the eighth (8th) through fourteenth (14th) days of			
13	delay; \$5,000.00 per day for the fifteenth (15th) through thirtieth (30th) days of delay; and \$10,000 for the			
14	thirty-first (31st) through ninetieth (90th) days of delay.			
15	2. For failure to submit other required written Submittals not described above by the time			
16	required pursuant to this Order: \$250.00 per day for each of the first seven (7) days of delay; \$500.00 per			
17	day for the eighth (8th) through fourteenth (14th) days of delay; \$2,500.00 per day for the fifteenth (15th)			
18	through thirtieth (30th) days of delay; and \$5,000.00 for the thirty-first (31st) through ninetieth (90th) days			
19	of delay. Ecology retains its entire rights to issue penalties or orders for damages or for any other actions			
20	that are not covered by this section. Issuance of penalties under this section shall preclude Ecology from			
21	issuing any other penalties for that violation.			
22	Should a penalty be assessed under this section, the penalty shall begin to accrue from the date on			
23	which the work was to have been performed, or the submittal was to have been made, and shall cease to			
24	accrue on the date the PLPs perform the required work or deliver the required submittal to Ecology. The			
25	assessment of penalties shall be subject to the Dispute Resolution procedures specified in Section VII.11,			

1 except that the amount of a stipulated penalty is not subject to challenge. Penalties shall accrue but not 2 become payable until after dispute resolution procedures are completed. All penalties will be payable 3 within forty-five (45) days of assessment or the completion of Dispute resolution procedures if applicable, 4 to the Department of Ecology, Cashiering Section, PO Box 5128, Lacey, WA 98503-0210.

5 3. The PLPs shall not be liable for payment of penalties if the PLPs have submitted to Ecology 6 a timely request for an extension of schedule, and if Ecology has received the written request and has not 7 denied the request in writing.

- 8 IX. SATISFACTION OF THIS ORDER 9 The provisions of this Order shall be deemed satisfied upon the PLPs' receipt of written 10 notification from Ecology that the PLPs have completed the corrective actions required by this Order, as 11 amended by any modifications, and that the PLPs have complied with all other provisions of this Agreed 12 Order.
- X. AMENDMENTS 14 Ecology and the PLPs may modify this Agreed Order by mutual written agreement. Substantial 15 modification may require additional public notice and opportunity to comment. Ecology will determine if 16 the Agreed Order modifications are substantial, thus requiring additional public notice and opportunity to 17 comment.
- 18 XI. ENFORCEMENT 19 1. Pursuant to RCW 70.105D.050, this Order may be enforced as follows: 20 (A) The Attorney General may bring an action to enforce this Order in a state or 21 federal court. 22 **(B)** The Attorney General may seek to recover, by filing an action if necessary, the

23 amounts spent by Ecology for investigative and remedial actions and orders related to the Site.

13

1	(C)	In the	e event the PLPs refuse, wit	hout sufficient cause, to comply with any term of
2	this Order, pursuant to RCW 70.105D.050, the PLPs will be liable for:			
3		(i)	up to three times the am	ount of any costs incurred by the state of
4			Washington as a result of	of its refusal to comply; and
5		(ii)	civil penalties of up to \$	25,000 per day for each day it refuses to comply.
6	(D)	This	Order is not appealable to t	he Washington Pollution Control Hearings
7	Board. This Order may be reviewed only as provided under RCW 70.105D.060.
